

TEUTONS OPEN HIGHWAY INTO TURKISH LINES

Germans Succeed in Uniting With Bulgarian Army Along Danube -- Way Clear to Constantinople

LONDON, Oct. 28, 2:45 a. m.—The Bulgarian authorities have agreed to the railway line between Dedagatch and Oskichia, which is now worked by the Bulgarian state. A dispatch from Sofia says it is semi-officially announced that Bulgarian troops have gained important success in the direction of Kizilavaz. They have occupied the town of Kizilavaz, and captured by storm a position of Dravoglav, which is a key to the fortified girdle about Plovdiv.

BERLIN, Oct. 27, via London, 4:46 p. m.—Direct connection between the Austro-German forces in Serbia and the Bulgarian army of General Boyadjeff has been established on the Danube river to the east of Brza Palanka, according to the official announcement given out today by the German army headquarters staff.

The junction of the Austro-German armies with the Bulgarian troops was made in the extreme northeastern corner of Serbia. The Serbian town of Brza Palanka, to the east of which the invading armies joined hands, is on the Serbo-Rumanian frontier, and about fifteen miles south and east of the Austro-Hungarian border. The accomplishment of the junction by the Bulgarians penetrated Serbian territory in a northerly direction for 20 miles.

The situation in Serbia still holds the chief point of interest in the world war. In the northeast, the Austro-Germans and Bulgarians have formed a junction which brings the Teutonic Allies a step nearer the attainment of their purpose—to lend aid to their Turkish ally.

From Rusechuk to lines of railways radiate, one to the south, connecting at Philippopolis with the Belgrade-Constantinople express line, and the other running eastward to Varna, Bulgaria's chief seaport on the Black Sea. By the use of the river to Rusechuk, therefore, the Teutonic Allies could be supplied, not only to the Balkans, but to the Gallipoli peninsula, but to the Bulgarian forces and possibly some of their Turkish Allies, who will meet any attempts at a hostile landing along the Black Sea coast.

That the Teutonic Allies will continue southeast along the Timok river valley in an endeavor to reach Nish and capture that important junction of the Belgrade-Constantinople express line and the Nish-Sofia line is still a possibility.

It is still mountainous country in which the Austro-Germans and Bulgarians are fighting against the Serbs in northeastern Serbia. To the east of their positions lies the Timok river, and across the river, in the extreme northeastern neck of Bulgaria, between the Serbian and Rumanian frontiers, are a mountain range and a veritable network of rivers all the way southeastward to Sofia.

Although the armies of the central powers and Bulgarians are making progress at all points north, from the Danube and Save rivers, and from the Drina on the Bosnian front, British troops from Saloniki have now joined the hands in the south with the French forces, who have been victorious over the Bulgarians near the Greek-Serb frontier. This would indicate that the 13,000 British troops who were landed in Greece, are now, or soon will be in action.

The French have destroyed with mines, German intrenchments south of Neuville St. Vaast, and, entering the crater made by these mines, have held the newly gained positions despite a violent bombardment and counter-attacks by the Germans, whose losses are declared to have been heavy.

The French also have repulsed near Rheims an attempt by the Germans to attack under the cover of gas. Several gas attacks have been repulsed by the French, and the French are now going on for the trenches north of Ville St. Thaur.

In the eastern zone, Field Marshal von Hindenburg has taken a mile and a quarter of the front of the Russians at Gorizia in the last 24 hours. The British are attacking vigorously on certain sectors.

The Austrian and Italian statements are at variance with regard to the fighting on the Austro-Italian front.

Italian Success

CHASSO, Switzerland, Oct. 27, Via Paris, 2:45 p. m.—Advices from Brescia state that the Italians on October 25 interrupted the bombardment at Gorizia by a formidable infantry attack. They captured strong positions, but the Austrian artillery proving effective against them the Italians resumed the bombardment from south of Tolmino to St. Andrea. The situation of the Austrians at Gorizia is considered critical. The dispatches indicate, as the Italian artillery is outgunning the Austrians, are now attacking the Austrian inner line.

To Limit Censorship

PARIS, Oct. 27, (2:20 p. m.)—The campaign that has been conducted by journalists and members of Parliament against the censorship of news and comment of a purely political nature, has been crystallized in the form of a proposed law which has been approved by the committee on legislation of the Chamber of Deputies. The measure provides that all publications must be communicated to the government before being offered to the public, but that the censor shall

NO SUGAR LIMIT ON SHIPMENT OF ORANGES THIS YEAR

Congressman Curry Secures Cancellation of Federal Regulation

HOUSTON ACTS

Fruit Must Not Be Heated, Sweated Or Artificially Colored

(Special to the Republican.)
WASHINGTON, Oct. 27.—Following protests made today by Representative Curry to Secretary of Agriculture Houston, a regulation of the bureau of chemistry that California oranges cannot be shipped in interstate commerce unless they contain eight parts of soluble solids to one part of citric acid will be temporarily set aside.

No attempt will be made by the department of agriculture to interfere with this year's interstate shipments of California oranges no matter what their contents, as was threatened under the regulation. The department will only prevent shipments of oranges that are heated, sweated or otherwise artificially colored.

Curry was accompanied by Edward K. Curran of Sacramento, representative of the citrus fruit growers. The regulation was made by Dr. Carl L. Alsberg, chief of the bureau of chemistry, last year, and would have been effective against this year's crop of California oranges whenever the fruit did not measure to the Alsberg arbitrary standard.

Curry told Alsberg the bureau had no lawful authority to fix an arbitrary standard for orange contents and demanded that the regulations be referred to Attorney General Gregory for an opinion as to its legality. Alsberg refused to do so and Curry and Curran then went direct to Secretary Houston. It is probable that the regulation eventually will be rescinded. Florida growers also have protested to Houston.

Curry told Alsberg the bureau had no lawful authority to fix an arbitrary standard for orange contents and demanded that the regulations be referred to Attorney General Gregory for an opinion as to its legality. Alsberg refused to do so and Curry and Curran then went direct to Secretary Houston. It is probable that the regulation eventually will be rescinded. Florida growers also have protested to Houston.

FULL POWER TO PROTECT BORDER

Funston Does Not Need to Wait for Orders to Shoot

(Special to the Republican.)
WASHINGTON, Oct. 27.—Should Villa troops cross the border and attack the Mexican town of Agua Prieta from the Texas side, as news reports from the scene have indicated, they might do, they will be treated as outlaws, and not be treated as soldiers, according to the statement of General Funston, commander of the American border forces, today.

Major General Funston, commanding the American border forces, has full authority to take any necessary steps to protect the Texas border from the Mexican side, according to the statement of General Funston, commander of the American border forces, today.

With the recognition of the Carranza regime as the de facto government of Mexico, the border situation is somewhat changed. Should armed men in revolt against the government cross the line, they would be considered outlaws, and not be treated as soldiers, according to the statement of General Funston, commander of the American border forces, today.

General Funston said, "Carranza has won. We cannot oppose him successfully in the face of a United States arms embargo against our forces. General Amiel also expects to retire from active participation in the fighting for Los Angeles. Carranza has established a sound government if he can, and then join forces to oppose him politically—not by force. Mexico has had enough of war."

"Already rivalry, it is understood, is becoming serious in Carranza's camp. General Obregon, who is said to be president, and I should not be surprised if he realized his ambition."

General Maytorena, senior Ramirez and other went to Washington three weeks ago as Villa representatives.

Villa Reaches Borders

DOUGLAS, Ariz., Oct. 27.—The advance guard of General Villa's forces invading Sonora was reported today by the border patrol to have reached a point near the international border, eighteen miles east of Agua Prieta, opposite here, where the Carranza forces of General P. Elias Calles are concentrated.

General Villa was reported to be near Colonia Morelos, in the rear of this advancing column of soldiers, supervising the transportation of artillery and baggage wagons.

AIR FLEET WILL CONCENTRATE ON GERMAN FACTORIES

PARIS, Oct. 28, 1:45 a. m.—The formation of a supplementary air fleet of 5,000 aeroplanes, the special mission of which will be to conduct a relentless campaign of destruction on German factories, is the subject of the new French Aerial League. The league was founded by a group of prominent Frenchmen headed by former Premier Louis Barthou.

UPHOLDS RIGHT TO BRING ACTION AGAINST VICE

SAN FRANCISCO, Oct. 27.—A citizen's right to institute suit under the Redlight Abatement Act, even in the face of opposition by the authorities, was upheld today by Judge George A. Startevant, in the superior court. The decision was given in the granting of an injunction against operation of a place in "Barrett Alley" sought by James G. Chown.

KAISER MEETS U. S. AMBASSADOR; BIG SENSATION

BERLIN, Oct. 27, via London, 10:43 a. m.—Ambassador Gerard declined today to discuss for publication his conference yesterday with Emperor William. The conference which took place at Potsdam lasted for an hour.

LONDON, Oct. 28, 4 a. m.—An Amsterdam dispatch to the Daily Express says that the German ambassador, James W. Gerard, has caused a sensation. It was the first audience granted to any ambassador of a neutral country for eight months and it lasted an unusually long time.

MERCED YOUTH IS KILLED IN ACCIDENT ON WAY TO FAIR

(Special to the Republican.)
PLEASANTON, Oct. 27.—Arthur Strecht of Merced died this morning as a result of injuries received late last night when his automobile plunged over a steep embankment near here. Strecht was 21 years of age and was driving to San Francisco in his machine when the accident occurred.

An inquest is being held this afternoon by the coroner at Pleasanton. Strecht is connected with the post-office department at Merced. With James O'Neil, a railway postal clerk, he was on his way to spend a week at the fairgrounds at Merced. O'Neil was found to the side and escaped with a few bruises. Strecht was crushed beneath the car and received injuries that resulted in his death.

BUGS FOND OF LEAD CAUSE LEAKAGE OF ELECTRIC CURRENTS

SAN FRANCISCO, Oct. 27.—A hard-shelled bug, with an appetite for lead pipe, is responsible for the perforation of cable coverings for which telephone experts have blamed electrolysis, according to Albert Schuler of Santa Barbara, who exhibited three of the insects in the course of an address delivered today at the convention of the Independent Telephone Association of America.

"Here is your electrolytic," said Mr. Schuler, producing the bug. "I have captured many of them. Their scientific name is Simosium delectae, and they have cost us between \$300 and \$500 a month in Santa Barbara for repairs. These bugs and not electrolysis cause the leakage to your pipes, and when we find a way to destroy them, we will have solved one of our big problems."

STOCKHOLDERS OF NEW HAVEN WRANGLE

Unable Yet to Force Action to Prosecute Former Directors

NEW HAVEN, Conn., Oct. 27.—No business was transacted today at the annual stockholders meeting of the New York, New Haven and Hartford Railroad company. The wish of representatives of certain interests to examine proxies delayed announcement on the part of the corporation of approving the acts of directors as contained in the annual statement and the election of fifteen directors. Most of the stockholders left after depositing their ballots, but the recess then taken lengthened into hours and finally, tonight, the meeting adjourned without action.

Those stockholders who left apparently thought that business had been completed, after a lively debate, based chiefly upon opposition to the action of the directors in not instituting suit against former directors to recover moneys alleged to have been recklessly expended.

MESSANGER IS ON WAY TO LONDON WITH U. S. PROTEST

Secretary of Berlin Embassy Employed to Take 10,000 Word Document

KEPT SECRET

Result of Wilson's Position On British Interference With Trade

WASHINGTON, Oct. 27.—America's long considered protest against British interference with commerce between the United States and Europe has been dispatched to London by special messenger and will be presented by Ambassador Page at the British foreign office next week.

It became known that the note, which is about 10,000 words long, and covers exhaustively the argument of the American government on all phases of interference with neutral trade, was approved by the President last Saturday and started on its way to London Sunday. Alexander W. Kirk, third secretary of the American embassy, at Berlin, who had returned to Washington carrying documents from Ambassador Gerard, was entrusted with the mission on his return journey to Berlin.

Until today the fact that the communication had been sent was kept secret, instructions having been given to officials to keep the announcement of any kind was to be made about it. That it contains a repetition of arguments made in the note of March 30, which recorded the Washington government's first protest against the order in council, or so-called blockade, is admitted, but no information was given by officials today as to what measures are proposed in the event that there is no modification of British practices.

Not only does the latest communication cover the various notes and memoranda sent by the British government since March 30, but it also acknowledges and discusses the lengthy notes that came from Great Britain in January, in response to the first protests by the United States against interference with neutral commerce.

It was the note, now on its way, which former Secretary Bryan advocated sending at the same time that the second Lusitania note was dispatched to Berlin, last June. President Wilson declined to send it at that time because of the fear that the United States might be placed in a position of bargaining for its rights with Germany on the basis of its attitude toward Great Britain. With the clearing up of the submarine controversy through the satisfactory settlement of the Arabic case, it was announced at the state department that the note to Great Britain would go forward. After three weeks of consideration at the White House, it finally was dispatched.

As prepared originally at the state department, the document was understood to be vigorous in tone and replete with objections to Great Britain's policy. No intimation as to whether the document since has been modified was available tonight.

CUBAN BUILDING GIVEN TO ARMY

Handsome Structure at Exposition On Government Grounds

SAN FRANCISCO, Oct. 27.—As a token of Cuba's gratitude to the American soldier, the Cuban pavilion at the Panama-Pacific Exposition, completely furnished, is to be given to the United States army, according to an announcement made today by General Enrique Lora, governor of Castillo, Cuban exposition commissioner.

"We desire that the army may know," he said, "there is perpetual remembrance in every Cuban heart of the blood shed by American soldiers for a national independence."

The pavilion, which is a handsome, well constructed building of modern government ground, part of the Provisional, temporarily occupied by the exposition.

General Castillo, who returned today from Cuba, announced that he would be a candidate, next year, for governor of Havana.

HUNT ASKS AID FOR THE STRIKERS

Some Miners Have Left Copper District for Work Elsewhere

PHOENIX, Ariz., Oct. 27.—A proclamation requesting the people of Arizona to aid residents in the Clifton strike zone was issued late today by Governor George W. Hunt. The governor asked that food and clothing be sent to the district, where several thousand copper miners have been on strike since September 11.

RURAL CREDIT AMENDMENT MAY WIN OUT

Tenure of Judges Measure Creeps Over Line---Third Proposal Stands Chance of Success

SAN FRANCISCO, Oct. 27.—On the face of the incomplete returns which had been received up to 9 o'clock tonight from yesterday's general election one of the nine constitutional amendments voted on promised to carry. Proposition No. 4, stipulating that Supreme, Appellate and Superior court judges should retain office until their successors had qualified, was leading by a majority of 3000 votes on returns from 3,733 of the 4,672 precincts of the state.

No. 5, proposing rural credits legislation, and No. 7, requiring a two-thirds majority vote to pass initiative measures and safeguarding initiative and referendum petitions, were gaining rapidly.

Returns from Sacramento and Fresno counties turned the tide in favor of the three amendments, and it was believed that belated returns from other interior points would further strengthen their chances. The majority against No. 5 was less than 6,000 and against No. 7, but a little more than 4,000.

Special Session Necessary
In the opinion of Harry J. Zemansky, registrar of voters for the city and county of San Francisco, a recognized election expert, the results of the election has left the primary law unworkable. Something must be done, he said today, before the presidential primaries next May, or no party electors can be chosen.

At the primary election next year, thirteen presidential electors, one United States senator, eleven congressmen, twenty members of the state senate and eighty members of the assembly are to be chosen.

It was said tonight that Republican leaders were planning to hold a convention to nominate a complete ticket, state and national, trusting to advertisements to make the names familiar to voters.

H. H. McKee, secretary of the joint parties state committee, said tonight that there would be no necessity, as the result of the election, to call a special session of the legislature.

Assemblyman Milton Schmitt, minority leader at the last session of the legislature, agreed with McKee. He said: "No session of the legislature is necessary, either on the election laws, or on the taxation matters."

Returns from 3733 or 4672 precincts in the state give, on the various questions submitted:

	YES.	NO.
No. 1 Direct primary	102,633	136,743
No. 2 Form of ballot	95,717	131,050
No. 3 Terms superior judges	45,497	185,933
No. 4 Term judges filling vacancies	113,640	110,000
No. 5 Rural credits	110,190	115,995
No. 6 Deposit of public moneys	134,877	134,877
No. 7 Initiative and referendum	108,652	112,932
No. 8 Denunciation in excess of need	83,709	135,705
No. 9 Taxation	37,955	181,595
No. 10 Exemption property from taxation	85,048	180,046
No. 11 County charters	87,034	133,883

SEVENTH DISTRICT PARTISAN BY MAJORITY OF ABOUT 4,000; VOTE IS VERY CLOSE IN FRESNO

The seven counties of the seventh congressional district voted against non-partisanship in state politics by a majority of about 4,000, according to returns from 435 out of 609 precincts in the district last night. The vote on the direct primary law was 7,590 for and 11,496 against.

More complete returns from the different counties, on all the amendments showed no changes in the general results. Rural credits and the initiative and referendum amendments were apparently the only two prospects that were carried in this district.

Stanislaus county voted in favor of non-partisanship by a majority of 337. The returns from this county are complete. This was the only county in the seventh district to favor non-partisanship on complete returns, although there is a possibility that Fresno county will favor it.

Result in Fresno Close
Returns from 115 out of 165 precincts in Fresno county last night gave the non-partisans a majority of five. The vote on the direct primary law was 2,217 for and 3,212 against.

The majority returned by Fresno in favor of rural credits will be just about the majority by which it will be carried in the district. The Fresno county majority last night was 2,562, while the district majority was 2,556.

DENY INVASION OF GUATEMALA

Cabrera Said to Desire to
Stir Up Trouble for
Carranza

EL PASO, TEXAS, Oct. 27.—The Carranza consulate here today gave out a statement from the official press bureau at Mexico City, denying a report, said to have been sent through the mails from that city, to the effect that the Carranza government forces had invaded Guatemala. The statement continues:

"The truth is that filibusters from that country (Guatemala) crossed the border some time ago in pursuance of a plot to provoke intervention, but were driven back by the Constitutionalists, who maintain an adequate force for that purpose, their only intention being to protect the country from invasion. The present Guatemalan government is bitterly antagonistic to the Constitutionalists, and President Estrada Cabrera and his associates are known to have been in correspondence to provoke trouble in Mexico. This is now impossible because of the revolution of the de facto government. Carranza is very unpopular with his own people and remains closely guarded in his palace."

NEW YORK, Oct. 27.—Five million dollars in gold sovereigns from Canada were received by the assay office here today for the account of J. P. Morgan & Co.

ARRESTED FOR THEFT SEVENTEEN YEARS OLD

NEW YORK, Oct. 27.—Felix A. Sommerfeld, a mining engineer, active dur-
ing the Madero administration in Mex-
ico, who subsequently attached himself
to the staff of General Villa, for whom
he is now purchasing ammunition, was
arrested in his hotel here today for a
theft alleged to have been committed by
him seventeen years ago. He insisted he
was the victim of mistaken identity.

Sommerfeld, who gave \$1,000 bail, was
identified by Elmer Zimmerman, a real
estate agent, as the man who stole \$275
from him in 1898. An indictment was
found against Sommerfeld in that year.
Zimmerman on October 1, 1915, read of
the appearance before the federal grand
jury of a Felix A. Sommerfeld, who was
called to testify in the present con-
spiracy charge against Andrew D. Mel-
lor, a real estate operator.

APPEAL IN SCHMIDT CASE.

ALBANY, N. Y., Oct. 27.—The fate of
Hans Schmidt, the former Catholic
under sentence of death for the murder
of Anna Ammiller in New York in 1913,
now rests with the court of appeals.
Arguments for and against a new trial
were made before that body today. A
decision is not expected for several
weeks. Should the court rule against
Schmidt, his next recourse will be an
appeal for executive clemency to Gov-
ernor Whitman, who, as district attor-
ney of New York, prosecuted the case.

Stop Misery and Embarrassment Like
This With Simple, Easy "Get-It"

"Get-It" is the corn sure to go.
Mary's friends and others, used to
be a heroine, suffering from corns,
using painful bandages, irritating salves,
sticking tape, toe-harshnesses, blood-bring-
ing razors and acids. Now, with "Get-It,"
there's no sense in it. Use "Get-It,"
applied in 2 seconds. Easy, simple, new
way—just painless common sense. Mil-
lions are doing it. You know for
sure. You can wear smaller shoes now. You don't
have to limp around any more, or walk
on the side of your shoes to try to get
away from your corns. You know for
sure before you use "Get-It" that the
corn or callus is going away. For corns,
calluses, warts and bunions.
"Get-It" is sold by all druggists, 25c
a bottle, or sent direct by B. Lawrence
& Co., Chicago. Sold in Fresno and re-
commended as the world's best corn
remedy by Smith Bros. and San Joaquin
Drug Co.

HOW THE NEW HAVEN BOUGHT UP A RIVAL

Handling of Connecticut
Line As Showing Con-
tempt for Sherman Law

NEW YORK, Oct. 27.—The activities
of Judge A. Heaton Robertson of New
Haven, one of the seven former direc-
tors of the New York, New Haven and
Hartford railroad, on trial for alleged
violation of the Sherman anti-trust law,
figured today for the first time in the
presentation of the government's case.
He was represented as having secretly
purchased for the New Haven, the Meri-
den, Waterbury and Connecticut River
railroad, a line which John M. Hall, then
vice president of the New Haven, thought
should be "swept off the face of the
earth."

Judge Robertson was said to have kept
it for more than two years, turning its
rolling stock over to the New Haven
company, and finally the road itself,
under a lease authorized by the New
Haven board of directors. This it was
stated, was after the pattern of the
road had been complaining because it
was not operated and the New Haven
management was known and made
political trouble in the Connecticut legis-
lature unless the road was operated.

The history of the transaction, intro-
duced in the form of letters written by
Hall, put in by the government in its
effort to show that even after the
New Haven directors were apprised by
the trans-Missouri rate case decision in
1907, that the Sherman law was applicable
to railroads, they continued in their al-
leged illegal acts. Charles S. Mellen,
who occupied the slot for his sixth day
of testimony, identified the signature of
the letters, but did little testifying.

Edward D. Robbins, one of the defend-
ants, but then attorney for the Meriden,
Waterbury and Connecticut River, also
figured in the transaction. That road,
one of the line allied to the New York
and New England road, had, along with
the New England, gone into the hands
of a receiver, and Judge Robertson
bought it in at the receiver's sale in
1896. Hall wrote to Robbins asking him
in whose name the check should be
made.

"I would like to have it arranged so
that payment of the check should not
be disclosed," he wrote. "I don't see
why Judge Robertson can't pay the
check right to you."
On May 5, 1896, Hall wrote to Robert-
son: "My dear Judge: I have received
notice from the New England railroad
that they are prepared to deliver to the
purchaser the Meriden, Waterbury and
Connecticut River stock and quite a
large amount of freight equipment and
desire to do so on May 20. If you are
not intending to deliver a Memorial Day
address somewhere, I suggest that you
join the present, myself and, perhaps,
the chief engineer, in a little expedi-
tion which we propose to take next Saturday
over the lines of your recent acquisition.
Of course, we should simply do so in
the advisory capacity, but we should
really furnish you transportation. Please
say nothing about this, as we do not
wish to advertise our trip any more
than is necessary. If we go with you,
we can act as witnesses to the delivery
of the property and you will have an
opportunity to get an idea of the value
and possibilities of the property which
you would hardly ascertain in any other
way."

SAYS WHITLOCK IS MISREPRESENTED

Germans Deny That Miss
Cavell Was Hurriedly
Executed

BERLIN, Oct. 27, by wireless to
Saville, N. Y.—The Overseas News
Agency today gave out a statement
regarding the case of Miss Edith
Cavell, the English nurse who was
executed recently in Belgium, that the
outset of which it declares that "the
United States minister in Brussels
(Brand Whitlock) states that the
British government publications re-
garding the Cavell case are untrue so
far as the facts are concerned."
"The British government," says the
news agency statement, "published the
correspondence between the American
legation in Brussels and the German
authorities there in the Cavell case,
the correspondence having been put at
the disposal of the British government
by the United States ambassador in
London."

"The principal facts are inaccurately
represented, especially the statement
making it appear as if the German
authorities by vain promises had put
off the minister in order to conceal
the sentence, by which means he was
robbed of the possibility of interven-
tion on behalf of Miss Cavell, the
sentence being hastily executed in the
meantime. Further Sir Edward Grey
stated that the German authorities
had not kept the promise given to the
American minister to inform him
about the course of the proceedings."
"The German authorities never
gave such a promise, this being ad-
mitted by the United States minister
at Brussels. The minister further
states that he was most painfully
affected by the publications and will
immediately inform the American
ambassador in London and the United
States government."

ALLOW BAIL FOR TWO POLICEMEN

LOS ANGELES, Oct. 27.—Police Ser-
geant William "Whill" Patterson and
Samuel Shuman, charged with the mur-
der last Friday of Chester Nolen, aged
17, were released from custody tonight
on bail of \$12,500 each. The preliminary
examination of the policemen was con-
tinued at the request of the district at-
torney until Friday afternoon.

Frank Ward, who was wounded by the
same bullet that killed Nolen when the
boys failed to comply to demands of the
officers that they stop their motorcycle,
still was alive tonight. Physicians said
his condition was somewhat improved.
The examination of Cavell and Shuman
was continued in justice court after
A. F. Wagner, autopsy surgeon, had tes-
tified that Nolen was killed by a bullet
wound through the heart.
The prosecution opposed the motion by
the attorneys of the officers for bail
to be fixed, but the court held that there
was great presumption of malice or premed-
itation was shown.
The funeral of Chester Nolen was held
today.

BERLIN, Oct. 27, by wireless to
Saville, N. Y.—In a telegram of con-
dolence to the widow of Baron von
Wangenheim, German ambassador to
Turkey, who died recently, Emperor
William pays high tribute to the
merits of the late diplomatist.

NATIONAL PRIMARY BY THE SOCIALISTS

CHICAGO, Oct. 27.—The first refer-
endum of any American political
party to nominate candidates for pre-
sident and vice-president began today
when nomination blanks were sent to
all members from the headquarters of the
Socialist party.

In the discussion of possible results
of the primary, Eugene V. Debs,
former Socialist candidate for presi-
dent; Seymour Steadman, Socialist
candidate for mayor of Chicago, and
Charles Edward Russell of New York,
writer and lecturer, were named as the
most likely candidates.

SURANVILLE, Oct. 27.—Prohibition
carried in the Third Supervisorial dis-
trict of Lassen county in yesterday's
election, according to returns made for
the result in the Fifth Supervisorial
district is still in doubt.

FARMERS SPEND DAY VIEWING EAST SIDE TOWNS AND VINEYARDS

Final Reception Is Given Visitors at Municipal Auditorium—Motion Pictures of Fresno County Scenes Are Shown

A one hundred mile motor car trip through the towns on the east side yesterday, convinced the farmers of the Santa Fe special that Fresno county is the greatest grape growing district in California. All about the route the visitors were showered with grapes, giving them the opportunity to realize what it means to specialize in viticulture. Very few of them seemed to be able to comprehend the magnitude of the industry in Fresno county alone.

Early yesterday morning thirty-eight Fresno people met the farmers at the Santa Fe station with their private motor cars and took them on the tour. During the day, the party was joined by other cars, all making for the headquarters on Kings river for dinner, where luncheon was served by the Fresno County Reception committee. Upon returning home early in the afternoon, the visitors were given a chance to rest up for the night entertainment at the municipal auditorium, which consisted of music, speeches and motion pictures of the valley country.

First Stop at Del Rey
The first stop on the east side trip was made at Del Rey. To give the farmers time to inspect the plant of the American Vineyard company. Every phase of handling raisins—from steaming to packing in neat cartons—was explained in detail by manager Fred Seymour. Before starting for a trip through Barber and Reedley, the guests were presented with small cartons of Not A Seed Raisins.

Dimba citizens greeted the farmers with bread and butter and a "hello, howdy-do," and, after showing off the schools and residence section, invited them to go for a spin on Haden's heights, where an excellent view of the valley is afforded. A light lunch was served on Honoka heights by the Woman's club of Dimba. The guests were particularly grateful to the ladies, as they were given an opportunity to relax after a long ride. It

STOMACH MISERY QUICKLY VANISHES

Your money back if you don't find it in the way in which all the leading drug stores are selling Mi-o-na, the great dyspepsia remedy.

This is an unusual plan, but Mi-o-na has so much merit and is so almost invariably successful in relieving all forms of indigestion that the dealers run but little risk in selling under a guarantee of this kind.

Do not be miserable or make your friends miserable. Get Mi-o-na. It will help you. If it doesn't, tell your druggist that you want your money back and he will cheerfully refund it. A change for the better will be seen from the first few doses of Mi-o-na, and its continued use will soon start you on the road to perfect digestion and enjoyment of food.

Mi-o-na has been a uniformly successful remedy that every box is sold under a positive guarantee. If it does not relieve, what further proposition could be made?

You can get Mi-o-na on this money back guarantee from practically every druggist in this vicinity, including San Joaquin Drug Co.

Lectures On the Teeth

The care and personal attention I give to each patient is one of the factors of the success I have attained. Any operation on the teeth is important to the patient. If it is given the careful attention by me, my system of doing work is painless. People have found this to be so. The large number of people in Fresno and vicinity who recommend me is proof that my work is satisfactory. My prices are less than dentists doing the same high grade of work charge.

Our special treatment is guaranteed to cure the disease in all cases. We also treat all other diseases of the leg and foot.

was with no little effort that the Fresno tour managers got the visitors back in line for the trip to Wahtoke winery and the headgates.

Inspect Wahtoke Winery
Only a few reached the winery in time to go through the entire plant. Those who were so lucky, expressed surprise at the method used to make wine. Several found it hard to believe that California wine is made of the grape juice only. They had been told that the grapes are fermented and then water poured on them to get the quantity of wine juice desired. That is not the case in any California winery. Under the government regulations, all wines must be made of the pure grape. Even the condensed must—concentrated grape juice to the thickness of syrup—he pure. Only brandy can be used in the wine for fortifying to keep it from fermenting after being put on sale.

At the present time, the management of the winery is not fortifying any wine, but is permitting it to ferment in an indefinite period of time in order to develop the natural alcohol in the grape juice. On this natural alcohol content, the winery does not have to pay a big revenue tax as it does for brandy or alcohol to fortify with. Under the present law, the winery would have to pay about \$35,000 revenue on brandy to fortify about 2,000 gallons of wine. The wine men hope to develop enough natural content brandy to preserve the wine without fortifying. John R. Rancho, manager, and P. E. Chase, United States pauper, showed the guests through the big plant.

The headgates on the Kings river was a sight far different from what most of the farmers had expected to see. The gates control the water for the canals that serve more than 400,000 acres of land in Fresno county. The supply control is automatically managed by a small water wheel, which was invented by Telman.

Come Again, Says Nares

Following the serving of individual lunches, grapes which were contributed by George Reedley, J. T. Moody and the Sanger Chamber of Commerce, were placed where everyone might help himself. After several short excursions had been made about the gates, L. A. Nares, on behalf of the Fresno county reception committee, made a short address, assuring the visitors that they had seen one of the most productive sections of land in the world. "You people are welcome to our country," said Nares, "and we want you to come again. And rest assured that we will be just as glad to entertain you the next time you come as we have been this time. There is one thing we want you to do, and that is to tell your friends exactly what you saw in California when you return home. Again, you may tell them that we are glad of the opportunity to have them in California. We will visit them in California. Whether you buy land or not, whether you come back to visit us again or not, I want to assure you that you are welcome to all the hospitality we have had the pleasure of extending your party. Come again, and be our guests."

C. M. Nares, of California, Iowa, replied to the welcome by saying that the most enjoyable part of the entire excursion trip had been spent in the San Joaquin Valley. He thanked the Fresnoans for their thoughtfulness in providing entertainment for the farmers.

L. B. Carr, assemblyman from Reedley, made a short talk. He drew a graphic picture of California resources and assured the guests that they will receive kind treatment in every section of the great valley.

In one or two places after leaving the headgates for Sanger, peach orchards had been grubbed on and chopped up for wood. When informed that the present price of peaches make the land an expense instead of a profitable investment, the farmers declared that they did not care to purchase new land. They were advised of the proposed plan to organize a growers' protective association, which seemed to give them more confidence in the industry.

Sanger Gives Greeting
Sanger was on the street 300 strong to greet the tourists. The brass band played and the ladies of the Woman's Improvement Club presented bouquets.

A Distinctive Interior Finish
FOR interior woodwork and furniture, no finish is more effective and distinctive than that rich, dull effect so much sought after by decorators and home owners of real artistic sense. This is best obtained by the use of

Hilo Flat-Finish
Formerly, to produce this rich, dull effect it was necessary to rub a gloss surface with pumice stone. This method was slow and expensive. Today the decorator or painter who knows varnishes produces the same effect by using Hilo Flat-Finish. A saving in time and money is the result.

Ask your dealer about Hilo Flat-Finish.

For interesting book on varnishes address:

Schutz Paint Co.
Fresno and I Sts.
Phone 708

to every one in the party. Several farmers remarked that a tour of the 320 of Fresno in the Eastern counties would not have been able, provided they had had the two special trips, such a fine show of progressive spirit. A big sign across the street indicated that work was commenced yesterday to have more than three million street windows at a cost of \$2,000,000. Remarkable, commented one merchant, agricultural.

Among the other points visited along the tour of the east side were Orange Grove, Sand Creek Gap, Centerville, San Joaquin Country Club, where the long, winding, daily drives won unusual praise, and George Reedley's ranch.

Santa Fe Given Praise

The Santa Fe officials were praised by several local farmers for the day for having organized the farmers' special. C. L. Sagar, general commissioner, and J. T. Moody, state plan, which seems to have met with the approval of all California. Among the others who have taken active part in entertaining the tourists are: L. A. Nares, district agriculturalist, with headquarters in Fresno; A. E. Osterling, E. Knapp and H. E. Chivers, local district agents.

When the automobiles drew up in front of the Santa Fe station upon the conclusion of the trip, many of the farmers declared that they were sorry to leave Fresno county, even if they are promised busy days at Reedley, Riverbank, Denair and other points before arriving at the Exposition.

Fresno's final reception for the farmers was held at the Municipal auditorium last night. The affair was under the supervision of the hostesses of the Commercial club, who attended in regular uniform for special occasions. The music for the evening was provided by the Municipal Union band, while motion pictures of Fresno county resources and industries were shown following short addresses by L. A. Nares, chairman; Chester H. Rowell, M. R. Brumbaugh of Matineburg, Pa., and George S. Reedley.

Nares made a very short introductory speech, declaring that he hoped all of the farmers would come back to Fresno either on a visit or to reside, and assuring them that they would always be given the kindest treatment. He introduced Chester H. Rowell, who made the address of welcome for the evening.

Mr. Rowell said that he was sorry circumstances had prevented him from getting acquainted with the visitors earlier, but that he was quite sure Fresno had taken the last care of them and would be glad to entertain them should they see fit to visit here something in the future.

"You are now in the center of the great valley of California—the San Joaquin valley. This valley fills about the same place in the West as does the valley of the Mississippi in the United States. Only in this valley, we grow practically everything that can be grown in any section of North America. This is due to our climatic conditions.

Products Californian
"Our climate is controlled by topographical conditions which affect our social and economic conditions. It is here in Fresno that you can get an accurate idea of our industries and our steady strides in progressive development. This is the one section of California where the products of our productions, staples, are and are succeeding. Our raisins are soon to be regarded as a fixed staple throughout the country, as well as other fruits which have not been put forward in the past. This is largely due to our weather conditions. Your eastern farmer depends upon the natural rainfall to water his crop, while in the west we have to depend upon the rain and snow in the mountains in winter to provide us moisture on the plains in the summer. Because of these conditions, we have learned how to co-operate, where as your eastern farmer prides himself more on being independent of his neighbor. However, the principle of co-operation is good, for it brings us closer together, giving us a warmer friendship and a better understanding of one another's problems."

After going into detail on many matters of interest to the homeseeker, Rowell closed his address by saying: "We are glad you came, we all hope you stay in our state, and if you don't stay now, we hope you come back, and you will all remember us, anyway."

Reply to Welcome
"We have been royally entertained ever since we came into California," declared Brumbaugh in his reply to the address of welcome in behalf of the farmers, "and we are fully convinced that we are going to receive many more treats in the hands of Californians before we break up our party. It is impossible for us to say how much we appreciate the thoughtful treatment extended our party. It is by far the most appreciated trip we have ever taken and all of us are going to want to come back when we get home."

"You people remind me of a person who lives up to the golden rule. I am sure you are entertaining us just as you would like to be entertained should you visit our part of the country. Another feature has greatly impressed me. Not since last Monday morning have I heard one kick. You are all optimists. In that you can certainly teach the east much."

"As regards your development of farm lands and your citrus industries, they speak for themselves," said Mr. Nares has already said in his introductory speech. We are more than pleased with what we have seen of everything here and everything you have is of the best. Your grape industry has certainly surprised us and we thank you for the trip of today and let us hope that sometime you will visit us and that we may do as well by you as you have done by us."

Spirit of the Valley
George C. Reedley was called upon by Nares to welcome the farmers to the San Joaquin exposition. He spoke of the spirit of the San Joaquin valley as a community, detailing the wonderful cooperation work done by the eight counties in arranging for the profitable exhibits at the exposition. He told the visitors that there is no such "dead stump" in the San Joaquin valley as jealousy and that all of the people work for the best interest of the state and community.

"Community spirit," declared Reedley, "is the secret of our wonderful progress." The members of the party were particularly delighted with the moving pictures of themselves at Kearney park on Tuesday afternoon. The pictures were taken by Laval. Several reels of other county scenes were exhibited. The special will leave Fresno at a o'clock this morning.

EPISCOPALS OBJECT TO COOPERATION

Bishops May Seek to Re-buke Action of Missions Board

NEW YORK, Oct. 27.—A special convention of the House of Bishops of the Protestant Episcopal church of the United States probably will be called in the near future in an effort to prevent the Episcopal Board of Missions from carrying out its intention of sending delegates to the Panama Interdenominational Missionary congress, to be held in February, according to it, Rev. Rosalind P. Weller, Bishop of Fond du Lac, Wis.

Bishop Weller was one of the five church dignitaries who resigned from the Board of Missions when the board, at its quarterly meeting yesterday, refused to rescind a former resolution authorizing participation in the Panama congress.

The board of missions at today's session adopted a resolution concerning instructions to be given the delegates to the Panama congress, which read in part: "Resolved, That our delegates go for conference only and with no purpose, authority or power of committing this board to cooperation."

here tomorrow when the stallions Ballot, Sain and Hessian with sixty-eight brood mares and thirty-one yearlings will go under the hammer.

BRITISH EXCHANGE AGAIN DEPRECIATES

NEW YORK, Oct. 27.—The value of the English pound sterling, which has been going down for the past ten days, dropped to \$4.50 5/8, a new low record for the current movement. A subsequent rally carried its value to \$4.61 3/4.

Negotiations looking to the establishment of a supplemental British credit, estimated at from \$200,000,000 to \$250,000,000, were still under way here today. This credit, it was said, would be purely of a banking nature, and would not involve the issuance of funds to be offered to the public.

HAITIAN REBELS FIRE ON MARINES

WASHINGTON, Oct. 27.—Marines from the battleship Connecticut were sent to reinforce the garrison in Haiti, 15 miles from Cape Haitien, yesterday, after the patrol under Captain Campbell had been fired upon by snipers. There were no casualties.

KILL SAFELOWERS

CHICAGO, Oct. 27.—Police of Chicago Heights, a suburb, fought a revolver battle with five safe blowers today, slitting one of them dead and captured two others. The men caught have their names as Thomas Rife, of Buffalo, N. Y., and James Moran, a Californian.

WE ARE KEEPING-OUT

Once more the United States is not intervening in Mexico. Once more we are following the mere negative policy of abstention from action rather than any positive policy of interference with the rights of a neighboring state. We are throughout carefully treating Mexico as we treat other countries and maintaining a strictly neutral attitude of non-interference.

To be sure, we have laid an embargo on shipments of arms into Mexico (except to Carranza) though we have carefully pointed out that we have no right under international law to lay such an embargo on shipments of arms to France or England. We have just granted permission to Carranza's troops to cross American soil in order to get at Villa's troops, but we have proclaimed that if any of Villa's troops should come across to attack or escape them, they would be treated as bandits and either imprisoned permanently in the United States or driven back across the line just where they came from, regardless of consequences to themselves. If Carranza's troops, on the other hand, cross the line, they are to be interned or transferred elsewhere to some point at which they may safely recross into Mexico. If Carranza's and Villa's troops get into a battle so close to our line that the bullets come across, and we find it necessary to drive them further inward, our guns are to be trained exclusively on the Villa troops and are to let the Carranza troops alone. Finally, yesterday came orders to the railroads running into Mexico to obstruct and delay shipments, as far as possible, of coal and coke headed toward Villa's supply stations. These railroads are common carriers, required by law to treat all persons alike, but they are ordered, in the name of our non-interference policy, to violate this law on non-contraband goods by seeing to it that coal shipments billed to certain buyers are facilitated and that coal shipments billed to other buyers are obstructed by intentionally bad service.

Far be it from us to suggest that there is any inconsistency between these facts and the principle of non-interference. What are mere facts, anyway when they conflict with a theory? We are keeping out of Mexico; therefore we were not in Mexico even when our soldiers were in possession of Vera Cruz. We have had no war with Mexico; therefore our adventure at Vera Cruz was one of "waging peace." It is none of our business who is president of Mexico; therefore, when we put Huerta out and afterward put Carranza in, we were not interfering in Mexican affairs, but were merely sitting on the border watching while the Mexicans attended to it themselves. For our policy towards Mexico is a negative one; therefore positive acts which we are continuously committing are merely facts and may consequently be ignored.

ARTISTIC "DAMAGES"

A dispatch from Chicago states that Mrs. Samantha L. Hartley was awarded \$900 "damages" for painting a portrait of former Governor Herbert S. Hadley of Missouri. We have not seen any samples of the temperamental Samantha's art, but if it is at all equal to some which we have seen produced in Missouri, the damages should have been awarded to Governor Hadley. On the other hand, if Governor Hadley had a face like some of the governors who have been to California this summer, \$900 would be too small an appraisal of the damages to the artist sentenced to portray it. But it happens that Governor Hadley is young and handsome, and that no serious damages therefore could have been done either to canvas or artistic sensibility by depicting his features. We are therefore at a loss to understand the verdict. However, whatever its basis, it at least furnishes an interesting precedent. If damage suits may be maintained with respect to works of art, we now some now exhibited in San Francisco against whose perpetrators a suffering public ought to have a case for exemplary damages in very large sums.

GROANING TAXPAYERS

"The groaning taxpayers," says the Los Angeles Times, "were the ones who defeated the Los Angeles county good roads bonds. 'Groaning taxpayers' is good. There is not a taxpayer in Los Angeles who pays one-tenth the tax which every one in Japan now pays and everybody in Europe soon will be paying. Aside from property taxes, franchise taxes, fees, licenses, and all the rest, it is expected that every income in Europe will be taxed permanently fully 50 per cent on all excess over a moderate subsistence income. In England already, all the large incomes are paying a 35 per cent income tax. In Japan the rate is equally high. Probabilities are that the average tax in Europe by the end of the next year will be some small sum on every income above \$500, a substantial amount on every income above \$1,000, perhaps 25 per cent on all excess over \$2,000, and 50 per cent on all excess over \$5,000. The 'groaning' taxpayers of Los Angeles pay about 1 per cent on the actual value of their property, some of them pay a fraction of 1 per cent additional in other taxes, and those of them who have incomes in excess of \$4,000 pay from 1 to 4 or 5 per cent income tax. The biggest

of these taxes is not one-tenth of the rate at which the real groaning point begins. The taxpayers are not groaning in Los Angeles or anywhere in America; or, if they are, the agony from which they think they are suffering is decidedly error of mortal mind which calls for absent treatment.

MANLY WRIST WATCH

The war is having many effects on the fashions. For one thing, it has shortened the skirts of women, to make them look more military—or something else—and has made those skirts voluminous. In order to supply a market for the distressed mills. It is, they say, bringing beads into fashion for men. It has made seriousness fashionable in Paris and death popular in London. But perhaps the most startling result will be to make the wrist watch fashionable, as a mark of rough and manly simplicity. A correspondent at the British front, describing the recent terrific attack following the bombardment of the German trenches, says:

"As morning approached after the night of bombardment, officers on the British front were looking at their wrist watches. In front of Loos the figure six marking the half hour—half past six—was the goal of the creeping minute hand." "The sooner they were in the German trenches the less likelihood of the Germans coming out of their dugouts." "If only one machine gun can be moved before the charge goes home, the charge may be stayed in that immediate section. It is all a matter of wrist watches, speed, team play and seconds."

The wrist watch as a simple strip—plunged off of fol-de-rol, as a symbol of the military absence of pockets, as an instrument of on-the-second efficiency and as a souvenir of the charge when seconds meant life and victory—who shall sneer at the wrist watch in future because it is effeminate? Soon we shall see laborers in the ditch, hunters and football players wearing wrist watches, while the pocket watch with fob or chain will be relegated to that mythical languid individual, the "club man" whose habitat is society novels and ready-made clothing advertisements.

THE MONTH

Here in California we have been spending the month attending the exposition, making money, or languidly debating non-partisanship. But across the water a Berlin dispatch describes the month as "the bloodiest and most decisive in the history of the world." The slaughter has reached the unimaginable number of 1,000,000 in the month—or one a second for every daylight hour. An American correspondent on the French front describes the terrible havoc in the Champagne offensive. "My first impression," he says, "was that Judgment Day had come; that I had been left behind to roam the disrupted earth alone." Such an advance could not be accomplished by the mere killing of men. It involved practically volcanic devastation of the earth. It had taken two months to prepare for the three days' bombardment. The Germans had woven a whole forest into an impenetrable barbed-wire entanglement. The French had constructed a system of 300 miles of trenches, behind the few miles of concentration front. Then, for three days and nights they rained a million shells a day—more than twice as fast as a watch ticks—on that narrow space. The shells tore great pits, some of them seventy-five feet deep and 150 feet across, in the chalk soil—and there were three millions of them. At the end there was not a tree or a root left; not a rabbit nor a rat remained alive, in all that space; and Germans were buried, dead and alive, by the hundreds of thousands in the debris. Most of the few prisoners taken alive were insane. These three days' bombardment cleared the way, and a day's battle finished the job. The French had moved forward across a few miles of front, a few hundred yards—and they had to make a volcanic waste to go even that distance.

In Serbia, men, women and children are fighting, inch by inch, and there are no prisoners. They all fight even after they are defeated, hand to hand, until they are dead. In Armenia, a whole population has been massacred or starved. In Poland they are starving. Across the great Russian front, whole populations, men, women and children, fled on foot before the advancing lines, and no one knows what is the present condition of those who survived the flight. The worst of the misery is in the East, whence little news comes. If, against a devastating host walking across England the whole population, men, women and children, were fighting until they were dead; if somewhere in France or Germany, a whole population were butchered, the horror of it would overwhelm us. It is just as terrible further East, but the cable service does not bring so vivid a picture of it. This is the state of the world, at this moment.

And in California we visit the exposition, attend to business, or languidly debate politics.

Blessed California!

HAS RIGHT TO FIX LIABILITY RATES

SAN FRANCISCO, Oct. 27.—The right of J. E. Phelps, state insurance commissioner, to fix liability insurance rates and to regulate accepted companies under the workmen's compensation act was upheld today by Judge George A. Sutherland in the Superior Court. The decision was given in a favorable ruling on a demurrer interposed by Phelps in an injunction suit brought by Tyer Brothers, owners of an iron works.

LONDON, Oct. 26, 7:35 p. m.—Lloyd's announces that the Norwegian Steamer of 287 tons net has been sunk. Two members of the crew were picked up. Nineteen others are believed to have been drowned.

"Ma, What Is a Meadow?"

Finishing Schools

When a girl is too refined or too exclusive or too stupid to be sent to a public school any longer, her fond parents send her to a finishing school. These schools are so named because of what they do to father. The life of a girl in a private school is very arduous. She must rise at every hand. In the best private schools parents are only allowed to see their daughters once a year, and then only if their influence is deemed desirable by the head teacher. The life of a girl in a private school is very arduous. She must rise at every hand. In the best private schools parents are only allowed to see their daughters once a year, and then only if their influence is deemed desirable by the head teacher. The life of a girl in a private school is very arduous. She must rise at every hand. In the best private schools parents are only allowed to see their daughters once a year, and then only if their influence is deemed desirable by the head teacher.

Parents are only allowed to see their daughters once a year.

for both hands and face, piano playing, shoulder shrugging, small talking, eyebrow elevating, gown wearing, father tanning, housework dodging, and many other useful sciences. She is also allowed half an hour a day in which to think, though in the best schools this is considered ill-bred.

The trouble with private schools in this country is that they are not half private enough. They are too easy to find.

PORTO RICANS ASK FOR HOME RULE

SAN JUAN, Porto Rico, Oct. 27.—The Unionist party, of which the leader is Luis Munoz Rivera, resident commissioner at Washington, has drafted a platform in which a declaration is made in favor of immediate home rule as against being granted independence from the United States.

STATUE STOLEN AT EXPOSITION

SAN FRANCISCO, Oct. 27.—Detectives were today investigating the circumstances attending the theft of a bronze statue valued at \$525 from The Netherlands section in the Palace of Fine Arts at the Panama-Pacific Exposition. The statue was entitled "A Young Sportsman Sitting Down" and was by L. E. Jeltsema, Dutch sculptor. It was stolen yesterday. This is the second time The Netherlands section has been robbed.

STAYS DRY

HEDDING, Cal., Oct. 27.—Hayfork supervisorial district, fifty miles west of here, was kept in the dry column by a majority of 36 votes at the election yesterday, according to returns received here today.

JAPANESE EDITORS STUDY RAISIN GROWING

Visit Ranches of Fellow Countrymen and Attend Banquet

To See Packing Houses Today; Party to Leave Tonight

A study into the horticultural methods of California ranchers and a banquet were two of the principal events yesterday in the entertainment of the Japanese editors in Fresno on their tour of the United States.
Today the party will be shown through several packing houses in the morning and in the evening. Addresses will be made at the Japanese church upon the conditions of Japanese in this country.
The visitors are being entertained by the following Japanese newspaper men of this city: S. Kihara, K. Sato, K. Waku and S. Miyano of the Central California Times. The visiting party includes: Tokuro Iwakawa, managing editor, Koshu Shimbun, Tokyo; Shiro Kono, editor, Yomiuri Shimbun, Tokyo; Kunihiko Goto, editor, Yomiuri Shimbun, Tokyo; S. Fukunaga, editor, Yomiuri Shimbun, Tokyo; Zensho Sato, editor, Chubu Shimbun, Tokyo; Sakusaku Shibuya, editor, Jiji Shimbun, Tokyo; Yoshitaki Kuroki, editor, Miyako Shimbun, Tokyo; Kihel Osaki, editor, Chugai Shimbun, Tokyo, and T. Chiba, editorial department Japanese American, San Francisco.

Yesterday morning the visitors were shown the ranches of several Japanese near Selma and Burren. The growing and preparation of the raisin crop for the market was a novelty for the editors. Raisins have not been grown in Japan and, until recent years, but very little of the dried fruit was consumed. All of the party stated yesterday that they would make frequent reference to raisins in newspaper articles on their return, and thus help to establish a future market.

In the afternoon Secretary Robertson of the Chamber of Commerce showed the visitors the fruit exhibits on display. The editors stated that in Japan the method of fruit culture was to raise small fruit, instead of large specimens as in this country. They said that in the future they would advocate an incorporation of the American methods. In the evening a banquet was held in the Hotel Fresno, at which 50 took part.

Today Secretary Robertson will conduct his visitors through several packing houses. In the afternoon a motor trip through the city and to ranches near Fowler will be made. The addresses upon the American treatment of the Japanese will be made in the evening. The party will leave for Los Angeles tonight at 11:15.

HEAD OF EARL COMPANY HERE

Joseph Digiorio, president of the Earl Fruit company, and party are in this city conferring with S. A. Lines, local manager, over the marketing of the fruit crop in this section. Mr. Digiorio is styled the "banana king" among fruit exchange members and has been at the head of the Earl company for some time. Lines conducted the party through points of interest in the valley yesterday. Mr. Digiorio is stopping at the Hotel Fresno.

PEOPLES ICE CO. FILES DEMURRER

The Peoples Ice company of Fresno filed a demurrer in the Federal Court in Los Angeles Tuesday to the involuntary petition in bankruptcy, which was filed against the company by several creditors. The demurrer will be argued either Friday or Monday.

BORN

EGAN—In Fresno, Oct. 27, 1915, to the wife of Leslie E. Egan, 517 O street, a son.

The Year's Greatest Millinery Event Mrs. Harpster's Fine Stock Autumn Millinery Bought For Less Than 40c On the Dollar

—This is the millinery sale of the year—the one great millinery sensation that will cause a widespread stir, for we are offering the fine and exclusive fall hats from one of Fresno's leading millinery shops at a mere fraction of their value.

—For years Mrs. Lou Harpster conducted an exclusive millinery shop at 1044 J street, and enjoyed a reputation for beautiful and exclusive styles. When we were offered Mrs. Harpster's fine stock of autumn millinery by the San Francisco Board of Trade for less than 40c on the dollar, we lost no time in accepting the proposition, for it would enable us to offer the women of Fresno Mrs. Harpster's high class and exclusive autumn millinery at a mere fraction of Mrs. Harpster's prices.
—It is hardly necessary for us to dwell upon the fine quality and original style of Mrs. Harpster's millinery. Suffice it to say that smart dressers who wanted hats that were different—with a distinct individuality and real Parisian air, went to Mrs. Harpster's.

—Also Mrs. Harpster's stock of trimmings, veils and ribbons at prices less than 40c on the dollar.
—See Our Big Window Display of Some of the Hats in This Sale
—Selling On Mezzanine Floor.

The Sale Begins Today

SOCIETY

Miss Margaret Thomas of Harrodsburg, Ky., who has been enjoying a several weeks' sojourn in Fresno as the guest of Dr. and Mrs. Montgomery Thomas, leaves on Saturday night for San Diego, enroute to her Eastern home. A round of entertainment is making the popular visitor's stay in Fresno one of much pleasure. This afternoon Mrs. Stigmund Wormer is entertaining at her apartment at the Maubridge, and tomorrow Mrs. D. H. Trowbridge will entertain at luncheon at her home on L street. On Saturday, her last afternoon, Mrs. W. O. Miles will be the hostess at a complimentary function at her home on M street.

Yesterday, Mrs. Frank Short entertained a dozen friends informally at a bridge luncheon, the table being attractive with a simple arrangement of pink roses for its center ornament. Mrs. Fred Dodd captured the trophy for highest score.

Mr. and Mrs. Ruben Hains of San Francisco will be made guests of honor at a dancing party on Saturday evening at the Sunnyside Country Club, which will be given by the latter's sister, Miss Onella Madison.

Mr. and Mrs. Philip Haber have returned from a several weeks' honeymoon in Southern California, and will be established in their country home near Sanger in a short time. Mrs. Haber was formerly Miss Helen Madison.

Mr. and Mrs. John Arthur Greenlee, whose marriage occurred early in the summer, will arrive today from the East, where they have been spending some months, and will be the house guests of Mrs. Armin Sachs for a short time. Mrs. Sachs will entertain on Saturday evening at a dinner at the Hotel Fresno in compliment to her guests. Mrs. Greenlee was formerly Miss Lulu Corbin of this city.

The Good Intent Circle of the First Christian church will meet this afternoon with Mrs. M. A. Story, 507 Central avenue, at 2:30.

Mr. and Mrs. Earl Smith will motor to San Francisco today for a week-end sojourn.

The Wednesday Afternoon Card Club enjoyed the hospitality of Mrs. Milton Deering yesterday afternoon.

at her home on Fresno street. No substitutes were required to fill the three tables, and the afternoon's sojourn was captured by Mrs. Philip Tupper. The club will be entertained next week by Mrs. James Cleahart at her home on Portcham avenue.

Miss Dorothea Burdick was the hostess at a very delightful tea yesterday afternoon at the attractive new home of Mr. and Mrs. A. W. Burdick on Vine avenue, entertaining the members of the Lambda Theta Phi Society. Fall flowers in simple arrangement enhanced the appointments of the living room, and the afternoon was spent informally. About a score of Society girls formed the congenial party.

Mr. and Mrs. Arthur Wheelock and little daughter left yesterday for San Francisco, where they will spend a few days.

The Book and Thimble Club will be entertained this afternoon by Mrs. Claude Munroe at her home on Angus street.

The active members of the Fresno Musical Club held a meeting yesterday morning at the home of Mrs. Montgomery Thomas on L street, and among other matters of business made tentative plans for the formation of two departments in the club work, those of a choral department and a piano department. The finances of the club are assured for the present season with a membership of 1930, as against 367 last year.

Mrs. Martha Blackburn of St. Louis, Mo., has arrived for a son's visit in the L. A. Nares household. Mrs. Blackburn is a cousin of Mrs. Nares and has made a host of friends here on previous visits.

Mrs. F. L. B. Burks will be a bridge hostess this afternoon, entertaining for Miss Healy Brooks, whose marriage to Glen L. Johnson will be an event of November 4.

Mrs. A. K. Dick entertained the members of the Taka Embroidery club very delightfully yesterday, at her home on Clark street, a luncheon of charming appointments, preceding the afternoon hours of needlework. The festive board was prettily adorned with pink dahlias and autumn foliage suggested the season. Mrs. H. Col-

derwood and Mrs. Edwin Fitzgerald shared the pleasures of the occasion with the club members. The club will be entertained a fortnight hence by Mrs. Robert McCourt.

The marriage of Miss Georgia Shipp and Boyd Elmer will be celebrated this evening at a quiet home wedding at the home of the bride's parents, Mr. and Mrs. George Shipp on Clark street, to which the immediate relatives and intimate friends of the couple have been bidden.

The Ladies' Aid of the Belmont Presbyterian church, will serve a chicken supper this evening at the church from 5 until 7.

The Ladies' Aid of the First Congregational church entertained yesterday afternoon at the church with a very delightful function, a musical program being featured with vocal members by Mrs. Arthur Wheelock, Warren Wetters and Mrs. E. J. Crawford, with a dramatic reading by Miss Christina Elithorpe, and piano numbers by Mrs. Wallace McFarce. Refreshments were served at the conclusion of the afternoon.

Mr. and Mrs. L. H. Remmel of Little Rock, Arkansas, are guests of Miss Alice Smith at the home of Mr. and Mrs. L. A. Melvin.

Members of the Sunnyside Golf club will play their usual games this afternoon, with the customary luncheon preceding the games.

Mrs. Milo Rowell will entertain a party of sub-debates and young people on November 5, with a dance party at the Sunnyside Country club, commencing her attractive niece, Miss Cora Rowell.

Mr. and Mrs. Carl Nichols, Mrs. W. A. Moore, Mrs. Audrey Moore and Jack Moore, motored to San Francisco this morning for several weeks' visit at the post office.

The Y. P. S. of the Swedish Lutheran church will meet at the church tonight at 8 o'clock.

Miss Cora Wallace was hostess at a party last evening, entertaining the Narviss club at her home on Clay street. A very delightful feature of the evening was musical program, with records on the Victrola by famous artists.

The guests later repaired to the dining room, where supper was served, the room being adorned in a color scheme of purple and yellow, with murals and cosmos for trimming. A basket filled with yellow fruits and purple grapes formed the centerpiece for the table. The guest list included a dozen.

The Columbia Social club of St. John's church will entertain this evening at the Parish hall with a masquerade ball. Dancing and cards will be features of the evening.

District Club Events

Mrs. E. D. Knight of San Francisco, president of the California Federation of Women's Clubs has accepted the invitation of the San Joaquin Valley Federation to attend the valley convention in Merced in April, 1916, her acceptance having been received by Mrs. J. E. Bedeas, president of the Women's Improvement Club of Merced, Wednesday.

The Drama Club of Merced will meet at the home of Mrs. W. E. Lilly on Friday afternoon, when Mrs. W. P. Miller will lead the meeting. The subject will be "Mona Vanna."

The Oleander Ladies' Study Club will meet on Thursday afternoon, October 28. The following program has been arranged:

Musical Mrs. E. K. Roll
Roll Call Current Events
Magazine Study By-Gone Rome

The leader of the meeting is Mrs. Bollo. The hostess is Mrs. Kingsley Van Lee. After the program there will be a social hour and refreshments will be served.

The Wednesday Club held its meeting yesterday afternoon at the home of Mrs. E. K. Cook, on Van Ness boulevard, Mrs. W. P. Miller giving the first. The program consisted of a series of readings, including "Das Rheingold," "Die Walkure," "Siegfried," "Gotterdammerung." The Rheingold with its mystic and symbolical interludes was particularly interesting. The program was a lovely garden surrounding the residence was a pleasing finale to the meeting. Visitors of the afternoon were Mrs. Ledbetter, Mrs. Clarence Freeman, Mrs. Tison, and Mrs. White. The next meeting will be held at the home of Mrs. E. K. Cook, when Mrs. H. W. Neely will lead in the study of new poets.

The Thursday Night Class will meet this evening at the home of Mrs. W. P. Miller, who will read Galinsky's latest drama, "A Bit of Love."

Mrs. Edna Orr James, of the Fresno State Normal school faculty was the speaker at the meeting of the Leisure Hour Club yesterday, when Mrs. W. H. Curston was the hostess at the home of Mrs. F. L. B. Burks. Mrs. James' topic was child study, and a most engaging hour was spent with the speaker's expert treatment of the subject.

Vocal numbers lent pleasure to the occasion. Warren Wetters giving sev-

eral including "June," "I Love You," and "Deanna."

The Home Department of the Parlor Lecture Club will give its first Home Day this afternoon, when Mrs. W. A. White, and Mrs. W. J. Elbert will be the hostesses of the occasion. This department is perhaps one of the most congenial groups segregated by common interest from the large club membership and their afternoons are always most enjoyable. Today tables will be arranged for cards bridge, "500" and what to be enjoyed.

The Board of Directors of the Parlor Lecture Club will meet on Saturday morning at the club house. Those having names to be presented for membership are instructed to notify the secretary, Miss Marguerite Humphrey or one of the members of the board.

Mrs. W. P. Miller goes to Merced tomorrow to lead in the opening of the new Merced Modern Drama club.

The Women's Improvement Club of Merced is to give a Halloween dance at Duncan's hall on Saturday evening. Good music has been secured and those who attend are assured of an enjoyable evening.

Tuesday night the German club of the Fresno high school held an open meeting at the home of Miss Adelle Sater. Mr. Schenoreberg gave an interesting talk on "German Schools in America" and concluded by reading "The Minstrel's Curse" by Ludwig Uhland.

MADERA PRINTER IS HURT IN ACCIDENT

Driver of Motorcycle Thinks Auto With One Light Also Motorcycle

Eddie Welch, a printer of Madera, was seriously injured last night on the road between Sanger and Fresno when the motorcycle on which he was riding crashed into an automobile. Welch was riding on the rear seat of the motorcycle. The automobile had only one light burning and the driver of the motorcycle thought it was another motorcycle approaching. He turned only half way from the road and crashed into the front of the automobile. He sustained a compound fracture of the left thigh, fracture of the left knee cap, lacerated head and possible fracture of the skull. Welch was taken to the county hospital and treated by Dr. John D. Morgan.

TO BRING BACK DESERTER
MADERA, Oct. 27.—Sheriff Lewis took today for Pueblo, Colo., to bring back Falcon, charged with family desertion.

An Ideal Complexion

Gives that snowy white complexion which makes women so precious.

At Druggists and Department Stores.

We will send a complexion cream sample for 15c. to cover cost of mailing and wrapping.

Art and Each of Us

On the walls of the dining room of a little country hotel were some crude pencil drawings. One was a head, another the head of a horse, and a third a landscape. The hotel was a little stream in the woods. They were unframed and showed the work of a child's hand. Probably they were the schoolwork of some member of the hotel keeper's family, and having won praise and high marks at school had been proudly placed on the walls of the dining room to show how well the son or daughter of the hotel could "draw." And no doubt the mother, if not the father, cherished dreams of the child some day becoming a great artist, and the child was held up to fond relatives and friends as having talent.

The ability to "draw" to make a picture, summed up, for that little circle, art.

And do not many of us think of pictures as the chief expression, if not the sum total, of art? We may include pieces of statuary. But is not this about all we admit into the charmed circle of art? And if we wish to show that we have a taste for art, if we wish to impress others with the fact that we have a taste for the artistic, do not many of us think that we accomplish this by hanging pictures on our walls, or placing a cast of Bary's "Lion," or a "Winged Mercury," or a "Victory" or "Venus" upon our mantel shelf?

But here is what a noted educator has to say of art: "Art is a quality whose two elements are use and beauty. Art is not antiquity, curios, or cost; neither is it something necessarily associated with a painted picture." He goes on to say: "Art is an essential to man's deepest satisfaction as any material quality can be."

This is a bigger definition of art, is it not, and of its scope than many of us entertain. And it brings the matter right home to each of us and to our surroundings. It wakens us to the fact that art is not only a matter of teaching our children to "draw," or of hanging pictures on our walls, or statuary on our mantels; but of having the architecture of our house pleasing to the eye because it is true to the principles of beauty; of having the designs and colors of our rug artistic and harmonious; of having the colors of draperies and furniture in accord, of having the patterns of our china ware beautiful; in fact, of bringing art, true art, into every object of our home and life.

And we should do all this not merely to sensuously please the eye, but because art, as this educator says, is a fundamental part of life, for it is expressing one of the eternal truths of being, the reality of beauty. And we should do it also for other reasons. Since art is essential to life, we should be able as a people to furnish it. This educator further states:

"In matters of natural resources, mechanical skill and physical energy, we are ready. In matters of art, we are crude, uncertain, and worst of all, satisfied there should be an awakening to a keener sense of the power and natural functions of art, as it relates to man's normal activities and to the educational systems of which we are a part."

The countries we have hitherto drawn upon in matters of art have largely gone to pieces. Here is another opportunity for us to supply a demand. So both for our own sakes and the world's sake, we should "enlarge our borders" in both our conception and expression of art.

For the next few months, art in some form will probably enter into the lives of many of us. Art classes, winter exhibitions and such things will be on our programs. Let us look at this art question in the biggest way possible and see how very vital it is to every one of us, to our home, to our business, and to the higher growth of our national life.

Lillian Russell's Beauty Talks

There are many reasons why folded arms are not pleasant to look upon. Aside from the inharmonious outlines they give to the figure is the fact that the position of folding the arms over the chest compresses the chest and lungs and weakens the muscles of the throat.

It is the natural tendency of weak people to lean forward. That is in itself a bad habit. But when weak people deliberately pull forward the shoulders and tightly clasp the arms in front of them, they draw the entire vertebrae out of place, strain the chords of the neck and compress all of the breathing apparatus.

The natural position of the body is erect. And to keep all of the machinery in its proper place one should stand erect, sit erect and walk erect.

Folding the arms is not a natural habit. On the contrary, it is a most unnatural one. A great many men sit with folded arms when they want to impress their importance upon someone, or when they have to come to some decision which spells refusal.

But in any great moment there are no folded arms. Shoulders are thrown back, a long, deep breath is taken and the whole body is relaxed, to give full power to thought and consideration.

No person can think well or long who sits with folded arms, for while

If you want advice on beauty topics, write to Miss Russell, care of this paper. She will be glad to answer all questions. If a personal answer is desired, stamped and self-addressed envelope should be sent with the query.

they are compressing their lungs, bronchial tubes and larynx they are compressing thought as well.

The folded arm habit is not unusual with some women. But the reasons for folding their arms is absolutely the opposite to a man's reasons.

A woman never expects to impress any one with her importance by folding her arms. She knows perfectly well that she is far more impressive when standing with her hands clasped behind her back, or gently folded on her lap.

The build of a woman prevents folded arms from appearing anything but unattractive.

One of the first indications of an overabundance of flesh is the tendency to rest the poor, tired arms upon the chest. Overfat women seem unconsciously to sit in that position.

any unconsciously because if they

TALKS ON HEALTH

By DR. W. A. EVANS
Noted Chicago Health Authority

NEW FASHIONS IN BABIES.

In 1905 Judge Dunno was elected mayor of Chicago by a considerable majority. In 1906 Mayor Dunno was a judge at an old fashioned baby show held in Chicago. There were several thousand babies and still more thousands of people in attendance. The babies competing for prizes and the parents pulling for their offspring. In 1907 Mayor Dunno was defeated for reelection.

Last month the Illinois state board of health held a new fashioned baby show at the state fair. I do not know that Secretary Drake of the state board of health intends to run for governor or for any other office, but I do know that since the baby show Dr. Drake has been wearing a pink carnation.

The old style baby show was death on candidates for office. The new style baby show is a vote maker. Why the difference? In the old style show the prizes were bestowed by favor. The

new style show teaches more baby hygiene in a week than other noncompetitive forms of instruction would teach in a year. The Pennsylvania board of health thinks so favorably of baby shows that they issue a circular entitled "How to Organize a Baby Saving Show." They think every town and village should hold an annual baby show and they offer to furnish some part of the material and some lecturers for such shows.

The cost of a baby show, according to a pamphlet issued by the Woman's Home Companion and entitled "How to Hold a Better Babies Contest," should cost less than \$25 where fewer than fifty babies are shown. The expense of an ordinary baby show should not exceed \$50. Where more than 500 babies are shown the cost will run to \$100. Most of the expense is for advertising and printing. This does not include the cost of prizes. The above pamphlet contains a description of the equipment needed.

In these better babies contests the children are measured, weighed, and otherwise tested as to their physical condition. Their life histories are carefully considered. Their mental and social capacities are considered. They are tests of the physical and mental development of children between 6 and 60 months of age.

In a contest the children are divided into five groups, as follows:

First division—Children from 6 months to 12 months of age.

Second division—Children from 12 months of age to 2 years of age.

Third division—Children over 2 and under 3 years of age.

Fourth division—Children over 3 and under 4 years of age.

Fifth division—Children over 4 and under 5 years of age.

In some shows these classes are further subdivided into (a) boys and (b) girls.

I have before me four score cards for better babies contests. One by Dr. Clark of Waterloo puts special stress on mental and moral qualities. Many years ago the Dr. Clark began work on a score card for babies which would put a premium upon the qualities which should be encouraged. One of their theories is that the good of society depends on the training of babies in industry, orderliness, and kindness should begin before the third month.

The baby health and eugenics score card of the eugenics section, national Western stock show, runs much more to health and eugenics than any of the others. On this score card the child is credited or charged with whatever of importance from the inheritance standpoint has occurred in the lives of the child's brothers and sisters, parents, grandparents, uncles, and aunts.

And first comes the heredity, in which does not show itself in any member of a family in three generations is considered to have been wiped out.

The better babies bureau score card especially emphasizes the physical condition of the child at the time of the contest. On the entry blank the parent gives such data as weight at birth, strong or weak at birth, number of children in the family, breast fed, bottle fed, if bottle fed, what is the food, number of feedings and amount of each, sleeps alone, sleeps in the open air, etc.

After that the blanks in the main card for the result of physical and mental examination of the child. It provides for scoring on the numerical system, as do the two others already mentioned. On the other hand, the Life Extension Institute score card does not provide for scores by numbers. In this the other score cards are superior. My experience as a health officer taught me that a score card must leave little to the option of the scorer. He cannot refrain from seeing values through his own glasses. The same baby scored by five scorers using a score card which says in detail just how much shall be allowed for each little point will get about the same score on the five cards. The same baby scored by five scorers using a score card which does not rate each detail in figures will get very different scores on the cards turned in.

NEUROUS HEADACHES are often caused from a deranged stomach or overtaxed nerves. Take Laxo-Nerva, which never fails to give results. Only at Smith Bros' drug store.

TRACTION COMPANY PATCHING STREETS

Repair Work Is Being Done On Fortcamp and J.

Work was started yesterday by the Fresno Traction company in patching the pavement between and adjacent to its tracks from Belmont and Fortcamp avenues to J and Kern streets. A crew of twelve men was put to work yesterday but will be increased to twenty-five today or tomorrow. The work will be between Belmont and Stanislaus streets on J yesterday afternoon. Several bad places in the street in the business section will be repaired but the greatest amount of work will be done on Fortcamp avenue, where the condition is worst.

The Traction company has already completed repairing the pavement on Tulare and Fresno avenues.

PLAN BUILDING AT KERN AND VAN NESS

City Engineer Does Not Approve of Frame Second Story

A one-story brick building and possibly a second floor to the used as a lodging house, will likely be erected by F. D. Vanderlip of San Francisco, on his property at the corner of Kern and Van Ness. The plans have not been completed yet, and no estimation at this time has been made as to the cost of the structure. Mr. Vanderlip yesterday conferred with E. E. Cronkite, city engineer, in regard to erecting a one-story brick and using the present frame building on the property for the second floor. The lower floor, according to the explanation made to the city engineer, would be used as a dining room and the second floor as a lodging house with a stairway on the interior of the building. Mr. Cronkite did not approve of this plan, so the owner may erect only a one-story structure for the present. Mr. Vanderlip, with his son-in-law and daughter, Dr. and Mrs. O. T. West, are at the Sequoia hotel.

BOLTON URGES PEACH GROWERS TO JOIN PROPOSED ASSOCIATION

Editor Republican: The dried peach industry of California is in a deplorable condition due chiefly to want of co-operative action in marketing. The solution of the problem involved in establishing a marketing system is not difficult, as similar economic problems have been solved wherever the farmers have established systematic co-operative effort.

Five thousand, eight hundred and ninety-seven farmers were engaged in the peach growing industry in 40 counties of the central San Joaquin Valley comprised within the counties of Fresno, Madera, Tulare and Kings, devoting \$5,568 acres of choice land to this industry in 1914.

Prices for dried peaches have progressed downward during the past three years at a fixed rate of 20 percent a year until today they do not pay the cost of production, and since the cause is primarily chargeable to want of co-operative distribution facilities in marketing, the remedy must be supplied by the growers in establishing an association strong enough to take care of the marketing end of the business.

The proposed million dollar Peach Association now being organized by a committee selected by the growers of a small mass meeting held at the Fresno County Chamber of Commerce, on August 21, should receive the hearty and loyal support of every grower in California if this great industry is to endure.

The great valley of California is endowed by nature with what closely approaches a natural monopoly of the three essential elements of production of sun-dried peaches, namely, sun-

shine, soil and water. Peaches are grown in commercial quantities in 21 states of the Union, but it should be remembered that climatic conditions limit the area for the production of sun-dried peaches to California and a comparatively small acreage in adjacent states, hence the peaches grown in states having humid climates are sold to the trade in the fresh uncurved state at the time they mature on the trees.

Our sun-dried peaches are not perishable, they can be transported long distances without deterioration, they can be used in a great variety of ways as components of daily food, throughout the year.

They are convenient for use by the armies in the field, since the process of cooking them approximately to their original weight.

Germany has given a market for half the dried apple export in recent years, thus removing from competition an important item. The war has closed the German markets to us, yet this has not materially changed the exports on this product, as South America has opened a market during the past week for 2,000 tons of dried fruits, valued at \$1,000,000, which were shipped from New York in one day.

To some, the European war is regarded as a menace to dried fruits, but the fact remains that the exports of 11 million pounds of dried peaches during the fiscal year ending June 30, 1915, equalled the total exports of similar products for the two preceding years.

The greatest menace to the dried peach industry during the past few

MALONEY IS FINED \$100 FOR GAMBLING

Tom Maloney, convicted of gambling in police court last week, was sentenced to pay a fine of \$100 by Judge Higgins yesterday.

Maloney was arrested September 15, when he and A. J. Saylor were engaged in a game of "stud" poker. When arrested Maloney is alleged to have told the officers that he would either have to gamble or starve. Last Friday he was given a jury trial and convicted on the charge.

There has been the practice of certain speculators in selling fraudulent peach crops to the eastern trade, in the spring, before the buds are formed on the trees, and then bearing down prices to a figure that spells ruin for the grower, while securing from the consumer all that the traffic will bear at the marketing end.

The California Peach Growers' Association has for its ultimate object the curing of these evils, by standardizing the goods, stabilizing the price, guaranteeing the trade against loss or reduction in price for fixed periods, and publishing brands of quality, reducing the price to the consumer while securing a reasonable profit to the producer, thus increasing consumption and expanding the market.

It is proposed to capitalize the Association at one million dollars, divided into 25,000 shares of the par value of \$40 each, based on 50,000 acres at \$20 an acre.

The prevailing price of dried peaches at this writing is 2 1/2 cents a pound, the average annual production for the state approximately 30,000 tons. Now, we know that if the association succeeds in advancing the price 2 1/2 cents a pound over and above current prices, which it confidently expects to do, this advance would pay the total capitalization of the company in one year and leave a surplus of \$500,000.

By the terms of the subscription agreement the grower is only required to pay one-quarter of his subscription each year for four consecutive years, hence he would be enabled to pay the stock in his company out of the advance in price and have a surplus profit of \$17.50 an acre over and above what he is now receiving for his product, assuming that the crop will produce three-quarters of a ton to the acre, and that 5 cents a pound should be the minimum price.

Better results than these have been secured by co-operative marketing of farm products in various parts of the United States and Europe, and it is reasonable to suppose that the peach growers of California can be united in one body for the preservation of this industry.

Organized system in marketing is essential to success in peach growing as well as in all other lines of industry. To stabilize prices by giving a lower price to the consumer while maintaining a living price to the producer.

The products of the soil form the basic activity of all industries, and should be developed in accordance with the progress and needs of the times in which we live.

Concerted action through co-operative organization, quality, standardization and finally an orderly, systematic distribution of dried peaches to the markets of the world, will bring happiness and prosperity to those engaged in this great industry.

J. P. BOLTON.

LA GRIPPE is quite prevalent at this time of the year and the best remedy is S. B. La Grippe Capsules, which never fails. Only at Smith Bros' drug store.

BOOKLETS ON FRESNO ARE BEARING FRUIT

From Three to Ten Letters Received Daily By Fair Commission

The Fresno County Exposition Commission has disposed of more than 20,000 copies of the booklet on Fresno since the shipment was received on May 1 of the present year. Of this number, copies have been sent to every state, and territory of the United States, and to many points in the old world.

By the end of this year, the organization will have disposed of the edition and also will have sent out in addition 40,000 folding letter cards charged to illustrate the various industries of California and also a map of Fresno county.

All this has borne fruit, and the result of this campaign of advertising has been the receipt of from three to ten letters per day from people who are seeking homes, many of whom express a wish to become identified with the industries of Fresno county.

CHINESE GAMBLERS PAY HEAVY FINES

Two at Parlier Contribute \$300 to Fresno County; Fined in Justice Court

Sam Yick Jan and Toy Loy of Parlier, contributed \$300 yesterday to Fresno county, that being the amount assessed against them by Judge Schaeffer in justice of the peace court. Jan was charged with owning a gambling house, and Loy with being a dealer in other Chinamen, found in the gambling house, were also in court. Deputy District Attorney Dwellie presented the cases, with the result that a fine of \$200 was assessed against Jan and one of \$100 against Loy. The cases against the others were dismissed. The fines were paid.

DOLPH SHIELDS MAY RETURN HERE

A. J. Shields, formerly of Fresno, but now a resident of Shasta county, is a visitor in Fresno, the guest of his sister, Mrs. Frank Montague, 453 Nielsen avenue. Mr. Shields, who left Fresno several years ago, had an alfalfa and stock ranch in Shasta county, but has disposed of this interest there and is now seeking a new location.

TEMPERING MURDER CASE UP

Chris Miller and Austin Oliver, charged with the murder of a cook named Temperance on the Miller & Lux ranch, were called before Judge Church yesterday and their cases were continued until December 1, at 9:30 a. m.

DISPUTE OVER BALKAN WAR CAUSES TROUBLE

Montenegrins at Parlier Engage in Fight; Are Arrested and Fined

Two Montenegrins, veterans of the last war in the Balkans, who came to California and settled in Parlier, became involved in a dispute on Monday last as to the merits of that war. The result was that Pete Azare, one of the disputants, drew a knife and plunged it into the arm of his adversary, Steve Bonazare. Bonazare was arrested and brought to the Fresno jail, where he remained until yesterday, when he was taken to Parlier by District Attorney Dwellie and arraigned before Justice of the Peace Schaeffer. He was fined, Azare was acquitted.

The Bill Shows the Economy of Electric Light

CONSIDERING ALL THE CONVENIENCES which Electric Light brings, how very inexpensive it really is! Other bills have been steadily growing larger and larger. But not so with the Electric bill. The high cost of living has not affected the cost of electricity. Electric Service is cheaper than ever.

Electricity Means True Economy in the House

Today we have more and better light, more housekeeping helps such as Electric Cleaners, Washing Machines, etc., than ever before, but we can enjoy all this at practically no more expense than the lighting alone cost us a few years ago. Electric Service has always increased; the cost has always decreased.

OPEN Y. M. C. A. CONTEST

Dodge Team Lead Membership Work

DRIVERS FOR BOYS' TEAMS
F. L. Simpson, Leonard La Blanc, Arthur Scaver, Robert Manifee, Sanford Brown, Barrett Hicks, John Hopkins, Riley Staples, Herbert Hubner and William Porteous

The Dodge car, with Manager C. H. Wakefield, Driver Tom McKelvey, and a corps of mechanics, landed at South Bend, Indiana, last night, while nine other cars were plunging along between Albany and Buffalo over the Lincoln Highway. This is the status on papers at the close of the initial day in the Y. M. C. A. Auto Membership Campaign.

The campaign is unique in local history. Ten automobile teams, taking names of standard automobiles, began yesterday morning in an effort to add 500 new members to the local Y. M. C. A. For each new member or renewal, forty miles are credited; the teams over the Lincoln Highway from New York to Fresno. Every dollar represents an additional five miles in the contest.

The standing of the teams in the membership work is indicated by the mileage accredited to the teams as follows:

Dodge, 1221 1-4; Hummobile, 227 1-2; Cadillac, 218; Geo, 215; Buick, 210; Ford, 197 1-2; Packard, 195; Maxwell, 187 1-2; Overland, 182 1-2; Studebaker, 165.

Four cities are entered in the campaign. They are Sacramento, Stockton, Watsonville and Santa Cruz.

We know a lot of people who always keep it in the house. That's why their floors are bright and cheerful. All their floors, furniture and woodwork look like new.

Kyanize

is a wonderful finish. It comes in all colors. Do over that floor and put a durable Kyanize finish on it. Make that furniture new again. Come in. We'll give you a free trial if you'll spend a dime for a brush to put it on with. Sure you'll always have it in your house.

GYM. EXERCISE NEEDED SAYS DIRECTOR TOOZE

Benefits of Gymnasium Work Told By Local Officer

By CHARLES H. TOOZE, Physical Director.

Through the physical department the Y. M. C. A. is liberally adding "tools to life and life to tools" for the men and boys of the association.

While the association is not an athletic organization, it stands foremost as an advocate of physical training. Association leaders realize that in this industrial age, with its concentration of people in the cities, the opportunity is presented for a great service in training and development of the physical life of men and boys.

The Fresno association is equipped, as far as possible, to meet the local needs, with a gymnasium, a plunge pool, showers, and with professional and volunteer leaders qualified to properly instruct and develop the men into the physical men they should be.

Exercise is the crowning feature of the class work. Exercise gives a friendly relationship between the heart, the stomach and the liver, and retains one's youthful suppleness while growing. It prevents the bent and rigid form, so common to old age, and retains a large degree of suppleness, even past the distinguished age of three score years and ten. Furthermore, this one factor prevents and cures obesity, or the burning out of adipose tissue, giving a healthy, solid flesh in place. Exercise makes one feel like a new man and gradually increases the physical energy, giving much greater resistance to disease.

Galen, the Greek physician, declared that the best physician was the best teacher of gymnastics. Plato is said to have called the person lame who exercised the mind and neglected to exercise the body. Irving Wallace, I am convinced that he who devotes two hours a day to vigorous exercise, will eventually gain those two hours and a great many more in the bargain.

Properly directed exercise will develop coordination of mind and muscle, stamina, endurance, strength, agility, virility and beauty. It will wonderfully help the young men to live better lives. Boys with the practice of the gymnasium rightly applied will lay the foundation of a symmetrical form and rugged constitution for late life. One must admit that a sound body lies at the foundation of all that goes to make up the success of life. Are you neglecting it?

SPRINGS AFFECTED BY AN EARTHQUAKE

LAGRANDE, Ore., Oct. 27.—Reports received today from a remote section of Union county told of some regular effects of the earthquake which shook this section October 20 last. A spring which had discharged hot water as far back as the oldest resident could remember has, since the earthquake, turned cold, and a cold spring nearby has increased its flow ten fold. At another place several miles distant a new spring has appeared in the middle of a well traveled mountain road necessitating the changing of the route.

Very gratified at the results obtained yesterday and from the outlook at present, hope to make this campaign even better than the one of last year, which netted the local association 463 members. It is expected that this year's campaign will give the Fresno Association a run for their money in the inter-city contest, but Fresno believes that they can again win out and get the silver cup.

The first day of the Auto-Membership Campaign, which is being conducted by the Fresno Y. M. C. A. against Sacramento, Stockton, Watsonville and Santa Cruz, yesterday produced very gratifying results, bringing 37 memberships into the association. The first day a large number was not expected, to be enrolled, but more are expected today and hereafter. It will be remembered that last

Director C. H. Tooze

year's campaign on the first day did not produce large results, but after the enthusiasm had got into the people of Fresno a hearty response to the workers was in readiness. Some of the men who turned in last night told Membership Secretary Fred Olsen that they had never had an easier time in signing men up than during yesterday, but owing to lack of time they had not gotten as many as they had hoped for the first day.

The campaign yesterday varied very much between the competitive automobile teams entered and the enthusiastic men who came in the morning. A very strong car pull in the morning led at 7 o'clock first, evading the ten rubber matras cars loaded with boys from the population, footing home, passed through the business district, and everywhere along the streets people eagerly watched the progress of the auto. The car will be held every evening at a place as one of the special advertising features of the campaign. Those in charge were

Sweet Tones of Pipe Organ Pleases Crowd at Recital

Although no public announcement had been made a large crowd was present last night for the initial recital on the concert pipe organ which has just been installed in the court at the Hotel Fresno. The recital last night was a "dry out" but the crowds came and all were astonished by the beautiful tones that came from the 500 or more pipes that go to make up the organ.

Dr. Gordon Redland, an organist who has been playing the large organ in the Liberal Art building at the San Francisco exposition, was the organist last night. He was brought here by E. S. Johnston of Los Angeles, the manager of the organ, who supervised the installation of the organ.

The court was well filled by the hotel guests and outsiders, who happened to drop in or heard that the organ was to be tried for the first time. Because of the appreciative audience, the organist was many of his best numbers, including "The Chanticleer," "Sextet from 'Lullaby'" "Prelude," "No. 1," "Alma," "OCE," "Glow-worm," "I'm On My Way to Mandy," and "Andantino."

The organ was originally intended for the California building at the exposition, but could not be delivered in time so it was purchased by H. W. Lake, of the Hotel Fresno. The organ is equal to a 16-piece orchestra. Vocal selections were also given last evening by Mr. Bretland and Oscar Highmeyer.

Mr. Lake announces that a public recital will be given this afternoon between 4 and 5, and during the dinner hour. A program for recitals each week, afternoon and evening, is being arranged.

The Hotel Fresno is the second hotel in the state to be equipped with a pipe organ, the other being the Glenwood Mission Inn at Riverside. Similar pipe organs have been placed in the Astor hotel, New York City, and in the palatial residences of Thomas Fortune, Mayor and Senator Clark, both residing in New York City.

Notes given for liquor were discounted at local banks and delivery never made.

CHARGED WITH FRAUD IN WHISKY SALES

NEW YORK, Oct. 27.—Three officers and eight salesmen of two whisky concerns were indicted here today on a charge of conspiring to defraud. About \$50,000 is said to have been obtained since 1907 through the sale of cheap whisky as high-grade and by the manipulation of notes by liquor dealers.

All of the officers, Adolph, Felix and Leonard Weiss, were reposed on bonds. The bond of Felix Weiss, who pleaded not guilty, is \$5,000, and the bonds of the other Weisses \$3,000 each. The eight salesmen have not been apprehended.

Salesmen represented, it is declared, that they were in company with Dr. Ritter in Louisville and Cincinnati. Federal agents maintain the companies purchased their liquor from distillers and sold it for twice the amount they paid for it. In several cases, it is alleged,

Better Butter Means Better Bread

No matter how good the bread may be, it will taste much better if it is spread with Danish Creamery Butter.

This is the butter that you can buy anywhere you go. It is the "better butter" and everywhere it is asked for by those who want the best.

DANISH CREAMERY FRESNO

THE NEW IDEAL SUCTION PLATE is backed by a guarantee that stands for 20 years of successful practice and by all the prestige of an old established firm, solid financially and professionally.

When a tooth has decayed until you think it is past its usefulness, it can nearly always be saved by the means of a crown and entirely restored to its former usefulness. This work is done in both Gold and Porcelain.

EASTERN LEGISLATOR VISITS MIDWAY FIELD

Congressman Lenroot Seeks Data Regarding Needed Oil Legislation

TAFT, Oct. 27.—The Olig Crude Oil Company, on Section 32, 31-22, near Fellows, is abandoning the No. 1 well. The hole has been plugged and the casing is now being pulled. With this pipe all above ground, plans are being laid to drill a new well which will use this material.

The No. 12 well of the Consolidated Mutual Oil Company on Section 32, 31-22, on the side of the Buena Vista hills, near Fellows, is on the beam. It was completed to the oil sand a few days ago and is now showing up good with indications of flowing with the heavy oil being drawn off.

Not they desire leasing the lands from the Government, of what is best to be done. The argument he put forth to the operators was that Congress and the public lands committee know but little about oil. With the operators not making their wants known it was impossible for legislation to be framed which would be beneficial to the industry from every point of view. He made it very plain that it was up to the oil men to get together and state their desire and needs, and make a request for legislation which would clear up the present trouble with the Government, which oil men now claim is reaching out, and taking in the best lands of the district.

Congressman Lenroot came without publicity or noise, it being his idea that in this manner he would be able to get a clearer idea of the needs of oil men on public lands than if he had come heralded far and wide.

While in the field he conferred with Captain Mattson of the Honolulu Consolidated Oil Company, William Maxwell of the Midway Consolidated Company, W. H. Cooley of the Clarence Barry property, and others at small informal meetings held at camps about the fields.

It was his plan to obtain the ideas of the operators relative to whether or

SHELL OIL COMPANY TO ISSUE \$5,000,000

Is Permitted to Issue Second Block of Stock to Holland Investors

SACRAMENTO, Oct. 27.—The Shell Oil Company of California has been authorized by the Commission of Corporations to issue to Holland investors an additional \$5,000,000 worth of its preferred shares to net the company not less than \$9,000,000. As in the case of the recent authorization for a like amount of preferred stock, the shares will be taken up by Holland capitalists and the proceeds will be used in the development of the Shell oil interests in this state. The company operates the Coalinga Oilfield Limited property, and a subsidiary company, the Valley Pipe Line Company, the pipe line to Martinez and the refinery at Martinez.

ORGANIZE NEW CLUB OF MARICOPA OILMEN

Lease Is Taken On Quarters to Be Fitted Up for Winter Social Season

MARICOPA, Oct. 27.—More than 20 Maricopa oilmen met on Monday night in Judge T. W. Brown's office and completed the organization of a social club to be known as the Maricopa Club. Those present elected officers to serve during the ensuing year, and arranged for finances to lease and furnish a club house for the use of the members as a musical quarters. About \$2,500 will be spent in equipping the club room with furnishings and in redecorating the building. A year's lease, with a privilege of two years more, was ordered taken on the Reardon building on Main street. The building will be thoroughly renovated and improved to make an ideal home for the new organization. The main room of the building, which is 30x75 feet, will be finished with a hardwood floor and will be used by the club for banquets and dances, and other social entertainments, which will be a feature during the winter months. The club room will be located in the east side of the building and will consist of a lounge room 20x60 feet, a buffet room 20x15 feet, and a kitchen and as well as a cloak room and wardrobe.

At the election of officers George F. Felster was chosen as president, Walter J. Barnhart vice president, E. H. Conklin secretary and C. Z. Vanderhorck treasurer. A board of directors consisting of seven members was selected as follows: George F. Felster, E. H. Conklin, C. Z. Vanderhorck, W. J. Barnhart, M. Longfellow, William H. Coons and W. V. White.

A house committee was chosen by the president to take charge of furnishings and equipping the building and to look after the affairs of the club in general. The members are W. J. Barnhart, William H. Coons and M. Longfellow. A membership committee was also chosen, the members being John Connelly. An entertainment committee composed of Henry Peterson, L. Cushman and Joe Welch was chosen to arrange for the social events to be held during the ensuing year. The auditing committee is composed of M. P. Luten, W. A. Hamilton and W. V. White.

The house committee was instructed by the members and board of directors to secure furnishings and prepare the club room for occupancy at the earliest possible date. The entertainment committee will prepare for a house warming, which will take place soon after the club gets settled in the new quarters. Special arrangements will be made to entertain the wives and sweethearts of the club members during the winter by a series of dances and parties, which will be held in the club room from time to time.

Other affairs in the organization and plans for the club's future were left to the various committees to arrange and the membership committee has in view more than 50 names for membership to the club to start with.

SUNSET OPERATOR IS GIVEN HONORS

MARICOPA, Oct. 27.—William A. Schultz, head of the Maricopa Investment Company and pioneer operator and land owner of the Sunset-Midway oilfields, was honored by the oilmen at a meeting held in San Francisco, Monday, for the purpose of asking Congress for remedial legislation for the oilmen of California, by being elected to the board of directors of the \$10,000,000 organization which was perfected at the meeting. The only other oilman from the Sunset-Midway field to be elected a director was W. O. Maxwell of Taft.

Mr. Schultz came to the west side many years ago and has been interested in the oil business of the Sunset-Midway field for more than 15 years. He has claims on valuable oil lands near Maricopa, on Section 22, 32-24. He is at present mak-

SHANNON SPEAKS ON SPACE AND ETERNITY

Kingsburg People to Sing in Swedish at Tent Tonight

Evangelist Dan Shannon spoke on the theme, "God's Space and Eternity," last night in the tent meeting. Replying to criticism that he is rough in his methods, the speaker declared that truth is rough and that he has been telling Fresno the truth, saying: "I have been wounding the knife because Fresno is sick in sin. Forty thousand patients are sick to death with no cure but Jesus Christ for the epidemic. I have been performing an operation to draw out the corruption and now I am about through. Now is the time for the healing."

A delegation of Kingsburg people will occupy a central section of the big tent and will sing in Swedish tonight. The spirit of the sermon is presented in some of the most pungent remarks as follows:

"Every people on the earth worship something. You have some people in Fresno who have gone so far that they worship themselves. I have to size up my crowd and preach to fit it. That's why I have to act the fool so often. I'll preach a thoughtful sermon tonight. I don't believe in death-bed repentance. It is the coward's retreat. God is not mocked and Fresno can't do it. The popular god is not the God of the Bible. He has no eyes to see sin; no ears to hear evil; no power to accomplish His plans. The god of the twentieth century has but one trait in his velvet, in this age we spell God with a small 'g' and men with a capital 'M'. Oh, the divinity of man! Why doesn't the world produce another Christ? Man is still the plaything of the forces of nature in spite of his vaunted conquest of her laws. Conflagrations, lightning, locusts, prove it. The people of Fresno are afraid of eternity. They dabble in the things of time, but about the thought of eternity till death, and then they whine for a social crown and have these. You preachers will have a lot more funeral sermons to preach after I'm gone. Better be afraid of eternity now."

MANY SUITS FILED IN SUPERIOR COURT

These Actions Instituted to Recover Monies Due On Various Contracts

That he may recover parts of lots in Allamont addition to Fresno and foreclose a mortgage thereon, F. F. Eckhart filed a suit in the Superior court yesterday against R. A. Van Loan and others.

Susie B. Moore occupies the premises at 1305 J street and that the rent therefor shall be paid Fannie T. Courtwright, began suit in the Superior court yesterday against the first named to recover the sum of \$40.

Orange Cove Lumber company yesterday instituted action in the Superior court to recover from W. A. Ferguson the sum of \$217.26 for lumber and cement furnished the latter.

Having furnished electric power to the Penn Development company the San Joaquin Light and Power company demands of the Penn company \$208.75 and to enforce this demand began suit yesterday in the Superior court for that amount.

For damages due to a breach of agreement and for money advanced the California Associated Raisin company yesterday brought suit against A. L. Baker for \$1,179.00.

For failure to comply with an agreement to deliver his crop of raisins for the year 1915 to them, the California Associated Raisin company yesterday sued George Emizian for \$5,000 damages.

VALLEY METHODISTS CONVENE HERE TODAY

Ministers and Stewards to Plan Work for Conference

The San Joaquin valley ministers of the Methodist Episcopal churches will hold their annual election of officers at the First M. E. church and confer on matters of religious interest today.

Dr. John Oliver, district superintendent, will deliver an address on "A Working Conception of the Church," at the morning session. S. W. Gamble will lead a discussion on "Sunday, the True Sabbath," during the afternoon session.

Dr. Oliver will be assisted by the Annual Preachers' Institute, which is to be held at Selma from November 15 to 17.

OBJECTS TO STAND IN FEDERAL ALLEY

George F. Nivever, 921 I street, has filed a protest with the city trustees because they have granted permission for a tool sharpening stand in the alley between J and Van Ness boulevard on Maricopa street. Nivever says he pays rent for his establishment and that the owner of the building pays taxes, therefore, the other man should not have a stand in the alley.

MISS WOLFF TO SPEAK AT Y. W.

Miss Maude Wolff, extension secretary, will begin a series of talks at the Y. W. C. A. this evening. Her first subject will be the "Origin and Growth of Sacred Literature." These talks are to be followed by a discussion of current events by Miss Eugenia Miller. All are invited.

TWO WEEK LICENSES

M. Korthmann has filed petition with the city trustees for license to conduct a second-hand business at 1018 H street.

J. A. Leiler and George H. Tippler seek a pool hall and billiard license at 404 I street.

RHEUMATISM

Is often caused from an excess of acid in the blood. Take S. B. Rheumatic Remedy, which never fails to give results. Only at Smith Bros. drug store.

DR. H. GARDNER BROWN

NO PAIN DENTIST

LOCATION: The stairway between the REST ROOM and the GRAND CENTRAL HOTEL leads to my office. Look for this stairway.

Lower Prices for Better Work

Not only is your dental work done entirely without the least pain, but it is better work than ordinary dental work. And because of the large practice I have been able to build up in so short a time my prices are unprecedently low.

I'll Keep You Smiling While I Treat Your Worst Tooth!

This sounds like a very strong statement and it IS a very strong one, but it is a true one. Dental work with "no pain" is an accomplished fact — I am doing it every day with complete success and each day I treat more and more persons without hurting them.

I Use the Analgesic Method

This is the method that has permanently driven pain from my dental offices. It is the method that has permitted me to treat hundreds of patients in this city and surrounding country without the smallest inconvenience to any of them. It is the method of guaranteed and established success. It is just as much a necessity of a truly modern office as sanitation. It is not an experiment, but the newest triumph of dentistry.

It is the crowning achievement of the profession, the subjugation of pain.

Take Care of Children's Teeth

If you but knew how many children suffer in health because of bad teeth, you would not neglect them. Stomach troubles are the least of them, though they lead to a host of other troubles. Lack of interest, apparent stupidity, nervousness, emaciation, and many minor ailments come from poor teeth.

Let me examine your child's teeth NOW. Don't wait!

BERNHARD IS BACK FROM WASHINGTON

J. P. Bernhard, the attorney, returned yesterday from an extended eastern trip, where, at Washington, D. C., he was present at the hearing before the Interior Department in regard to the matter of concession in Yosemite Valley. At the conclusion of the hearing, Mr. Bernhard was elected secretary of the Interior, announced he would make a ruling later. From Washington Mr. Bernhard went to New York, where he stayed several days. He returned to Fresno via Chicago.

FRESNAN TO JOIN ITALIAN ARMY

Giuseppe Scoletti, a citizen of Fresno, 38 years old, left yesterday for San Francisco for a short visit there, when he will go to Italy and enter service of the Italian army as a musician with the rank of sergeant.

MEETING IS POSTPONED.
No meeting of the directors of the Fresno County Chamber of Commerce was held last night as the directors joined in the welcome to the Eastern farmers.

What Dyspeptics Should Eat

"Indigestion and practically all forms of stomach trouble are, nine times out of ten, due to acidity; therefore stomach sufferers should, whenever possible, avoid eating food that is acid in its nature, or which by chemical action in the stomach develops acidity. Those sufferers who have been obliged to exclude from their diet all starchy, sweet or fatty food, and are trying to keep up a miserable existence on a gluten products, should try a meal of any food product, moderate amounts, taking immediately afterwards a teaspoonful of bicarbonate of soda in a little hot or cold water. This will neutralize any acid which may be present, or which may be formed, and instead of the usual feeling of uneasiness and fullness, you will find that your food agrees with you perfectly. Bismuth, magnesia is doubtless the best food corrective and antacid known. It has direct action on the stomach; but by neutralizing the acidity of the food contents, and thus removing the source of the acid irritation which inflames the delicate stomach lining, it does more than could possibly be done by any drug or medicine. It is done by an inflamed and irritated stomach with drugs but not rid of the acid—the cause of all the trouble. Get a little bismuth, magnesia, from your druggist, eat what you want at your next meal, take some of the bismuth magnesia as directed above, and note remarkable results."

MARTINEZ

The Wonderful City of Pay Rolls

Martinez Invites You to Share Her Prosperity

Martinez is the world's oil harbor. Martinez offers you a chance to make money. The magic wand of industry awakened Martinez when the Shell Oil company, a thirty-five million dollar California corporation, purchased four hundred twenty-five acres there and began building a refinery with an indicated completed capacity, greater than the Standard Oil company at Richmond which cost fifteen million dollars approximately, and employs about twenty-five hundred men. The Shell Company is credited with relations with the Giant Parent three hundred million Hotchchild-English-Dutch Oil combination and the formidable competitor of the Standard Oil company.

The Shell Company now employs about one thousand men at Martinez. Later it is expected they will employ from five to eight thousand. Other enterprises will naturally follow conditions which make the Shell proposition feasible. A population from twenty to thirty thousand for the city of Martinez at a no great distant date would seem a logical conclusion. Martinez's population has increased from twenty-five hundred to about four thousand in a few months. People are living in tents, sleeping on cots, in barns, garages, etc. Homes for the workers and their families is in urgent need in Martinez.

For those who invest in well located, resident lots in Martinez now, before the big advance in prices which is

95,000,000 FEET IS SEASONAL LUMBER CUT

Work to Close Within Two Weeks; Year Below Normal

Better Market Expected; War Cuts Down Export Trade

With less than 100,000 feet of lumber being cut in the Fresno lumber country at this time, the season's operations will be closed within two weeks. The cut is considerably below normal.

The marketing conditions and the season's work have been very quiet. The lumber cut in the Fresno country is expected to be about 95,000,000 feet for the season. This is a record for the industry. The cut is expected to be about 95,000,000 feet for the season. This is a record for the industry.

TWELVE TONS POWDER EXPLODED AT PIEDRA

Blast in Fresno Fuel Co.'s Quarries Brings Down Avalanche

Twelve tons of dynamite and black powder were exploded in a quarry at Piedra, Fresno county, at 2:45 o'clock yesterday afternoon when a large amount of rock was thrown down the face of the quarry.

The blast was caused by an explosion of dynamite. The explosion was caused by a fuse which had been lit by a person who was working in the quarry. The explosion was caused by a fuse which had been lit by a person who was working in the quarry.

GENERAL DODGE ILL

COUNCIL BLUFFS, Ia., Oct. 27. General Grenville M. Dodge, only living cofee companion of the Civil War, and a well known railroad builder, is critically ill at his home here. He is 81 years old.

Marketing and cutting is predicted by A. W. Heavner, manager of the Fresno Fuel Co. The company is expected to be about 95,000,000 feet for the season. This is a record for the industry. The cut is expected to be about 95,000,000 feet for the season. This is a record for the industry.

CLAYTON RESIGNS AS CITY RELIEF SECRETARY

Giffen to Succeed Temporarily; Carpenters Donate Work

Committee Adopts Resolutions of Appreciation of Dr. Clayton's Work

The resignation of the Rev. Thomas Clayton as secretary was filed with and accepted by the Citizens Relief Committee in a meeting yesterday, to become effective November 1. Rev. Clayton's decision to cover his connection with the work followed his appointment to the pastorate of the Union church in Houston, Texas.

The Rev. Thomas Clayton, pastor of the First Congregational church, was named as temporary secretary to succeed Rev. Clayton. He was delegated with authority to secure aid in carrying on the work of the relief committee and the Municipal Employment Bureau.

Announcement to the committee was made by the Carpenters' Union that the members would donate labor equivalent to 150 working days in the construction of the municipal building under the condition that the building will be used for the benefit of the city during the next two or three years.

The committee expressed regret at the loss of Rev. Clayton in the adoption of the following resolution:

Resolved, That the Citizens Relief Committee of Fresno County, having under consideration the resignation of the Rev. Thomas Clayton, and being deeply appreciative of the great work done by him and the public generally, and the loss which the city will suffer by his departure, do hereby express their appreciation of his services and his devotion to the city, and do hereby request that the Rev. Thomas Clayton be remembered with respect and affection by the city.

JOHN W. SHORT,
G. L. AYNIAWORTH.

JUNIOR COLLEGE NEWS

By Student Contributors

At a meeting of the Student Body of the Fresno Junior college, held yesterday afternoon, plans were launched for a very busy season.

With the intention of getting an early start in all athletics, Byron Showers was elected track captain. It was also decided to enter a team in the T. M. C. A. Basketball league. William Helcomb and Roy Burnett were elected temporarily as captain and manager of the team. The Junior college hopes to duplicate its success of last year in athletics, especially in basketball, tennis and track.

Furthermore, that the Junior College of Fresno may gain the attention which such an organization deserves through its athletic activities and, especially through the recently formed dramatic club, Karl Edlund was appointed publicity agent. This was deemed necessary, due to the fact that the Fresno Junior college is rapidly assuming a position as an educational institution, whose existence is so advantageous to the community.

Thinking of good times and "get-together" parties, a committee was appointed to plan an entertainment for the near future. Those appointed on this committee were William Helcomb, Gerda Kjaerbye and Byron Showers.

It is proposed to hold meetings of the Student Body at the same time as those of the High School Student Body. It is very probable that a program will be given at these meetings. In which the recently organized Dramatic club will take a prominent part.

The added convenience of holding the meetings at this hour will in all probability increase to a maximum the great enthusiasm hitherto displayed in the Junior College.

COMMISSIONERS TO MEET

The regular meeting of the police and fire commissioners will be held tonight at the city hall. Former District Attorney Edwards will likely be given a hearing on the charges brought by Chief of Police Geelgins.

GEIGER GIVEN DIVORCE

W. C. Geiger was yesterday awarded a decree of divorce from Thelma Geiger. The suit went by default.

Ends Dry, Hoarse or Painful Coughs Quickly

A Simple, Home-Made Remedy, Inexpensive but Unequaled

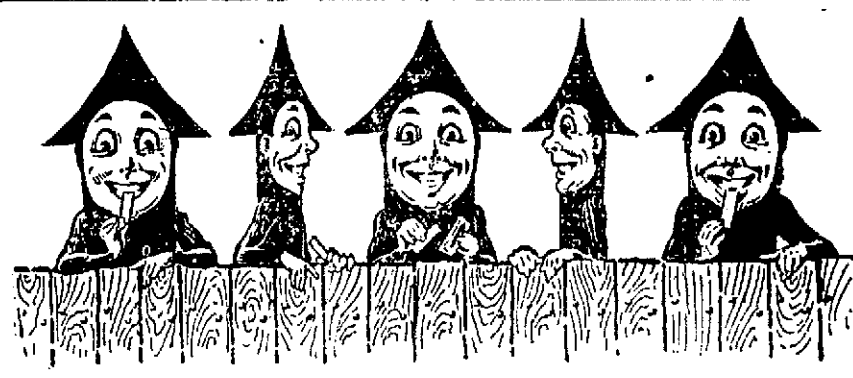

The prompt and positive results given by this pleasant-tasting, home-made cough syrup has caused it to be used in more homes than any other remedy. It gives almost instant relief and will usually overcome the average cough in 24 hours.

Get 2 1/2 ounces Pinex (50 people worth) from any drug store, pour it into a pint bottle and fill the bottle with plain granulated sugar syrup. This makes a full pint—a family supply—of the most effective cough remedy at a cost of only 54 cents or less. You couldn't buy as much ready-made cough medicine for \$2.50. Fully prepared and never spoils. Full directions with Pinex.

The promptness, certainty and ease with which this Pinex Syrup overcomes a bad cough, chest or throat cold is truly remarkable. It quickly breaks a dry, hoarse or tight cough and heals and soothes a painful cough in a hurry. With a persistent, lousy cough it stops the formation of phlegm in the throat and bronchial tubes, thus ending the annoying hacking.

Pinex is a highly concentrated compound of genuine Norway pine extract, rich in vitamin and is famous the world over for its splendid effect in bronchitis, whooping cough, bronchial asthma and winter coughs.

To avoid disappointment in making this, ask your druggist for "2 1/2 ounces of Pinex," and don't accept anything else. A guarantee of absolute satisfaction, or money promptly refunded, goes with this preparation. The Pinex Co., St. Wayne, Ind.

Let the Wrigley Spear Your Day's Work Cheer

Life takes on a rosier hue when you let the Spearmen comfort you. Wrigley's is JOY IMMENSE for 5 cents. The longest-lasting goody you can buy.

It keeps the teeth clean and bright. It prods a lagging appetite. It puts a poor digestion right.

An agreeable breath is more to be desired than the odors of

dining or smoking—so use WRIGLEY'S.

Two delicious flavors.

CARTER IS CHARMED WITH TRIP IN VALLEY

Extent of Country Planted to Trees and Vines a Revelation

J. D. Carter, collector of Internal Revenue for the Southern California district, who was in Fresno with Commissioner of Internal Revenue Osborn yesterday and who came at the personal request of the commissioner is charmed with his trip over the country. Collector Carter is a firm believer in Los Angeles and that section of the state, but he does admit that in the San Joaquin Valley he has seen the most beautiful country in the country and in what is designated as the play ground of the world.

"But this valley, this country surrounding your city, and which is tributary to it, is a magnificent country, and our trip over it has demonstrated to me that there are other places in California besides the section in which I live that has untold advantages. We have been inquiring into the wine industry and it is a great industry. This is also true of the grape industry and of your delicious fruit industry. The territory that you have pointed to me and to me is astonishing. Indeed, it is a revelation."

"No, I may stay over here a day or two longer, and if I should say too much about my own section I am afraid that the good people of your city whose guest I have been today would say that I was partial. The data which I have gathered by the commissioner on this trip will be unusually valuable in the consideration of matter pertaining to revenue problems and which he will present to the Secretary of the Treasury. The trip has been a most enjoyable one to all the members of our party."

Special Enrollment Day

Monday, November 1st.

Start your course in business on the above date. The training that Heald's are able to give is the training that the Business Man demands.

Six or eight months at Heald's will prepare you to take your place in a business office. Twelve months is sufficient time to complete the Combined Course.

There are plenty of opportunities for those who can do things. We have placed over 100 students in positions since June.

MOVIE ACTORS HAVE VERY HARD WORK

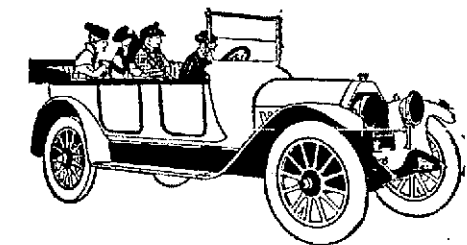

Broken Coin at Bijou Proves Strenuous to Those Taking Part

Making a motion picture is considered by a great many persons as a sort of all-time game. But the very opposite is true and many of the stars of the universal firmament are among the hardest working persons in the country. This is especially true of those who take part in serials.

So those who have had the remarkable work of Miss Evelyn Hamby will not be the least surprised to learn that she is now in a hospital. But the cause of the confinement to the hospital is an old one and dates back to the time when "Lucky Love" was being staged. At that time Miss Hamby was injured but refused to stay in the hospital as long as she should have stayed. The result was that she has been suffering ever since and has at last been forced to take to her cot again.

It has been more than a year since the original injury. In episode fifteen of "The Broken Coin," which was originally intended as the last one, there is the usual huge measure of excitement. It will be remembered that the two little countries had at last come to blows and are engaged in trying to conquer each other. Frederick and Kitty are shut up in a dungeon together, while Bouleux is still free.

Kitty and Frederick are hiding in the dungeon but Sachio and his men are striving to get in. After a long effort they are on the verge of success when Frederick escapes an all wheel once used to torture prisoners. He slips away from Kitty while she holds the attention of the attacking party, and before they know what he has done they are in danger of drowning. Higher and higher the water rises and slowly the weaker of the men drown. Sachio hastens to the rescue.

Oldsmobile

Oldsmobile Batteries Never Have to Be Charged Outside

Here's another of the many points of superiority of the Oldsmobile. The starting system is perfect. We have not heard of a case where the Oldsmobile has been cranked up in the last 18 months. The electrical system absolutely insures a full charge at all times. There is no guess work.

NOTE THIS! With all lights on and running at 10 miles an hour the generator in the Oldsmobile furnishes so much current that the batteries are still being charged.

SARAH BERNHARDT LOSES TELLEGEN TO LASKY

Popular Player in Thrilling Film at Kinema

Lou Tellegen Makes Sensation in Starting Tale of Adventure "The Explorer"—Kinema Today

It wasn't the handsomeness of Lou Tellegen that appealed to Sarah Bernhardt, when first she saw him at the Conservatoire in Paris, but rather his impassioned acting as the naked slave. However, he has physical beauty that alone ought to make him popular, but adding his perfect pan-

GOOD WEEK END BILL AT THE EMPIRE

Miss Miller, the Fresno Girl Still a Feature

The bill for the week end at the Empire theater is headed by Nell Miller, a Fresno girl, who is presenting a singing, dancing and instrumental specialty, which scored a big success at the opening performance last night.

Miss Miller is seen in Fresno dances and displays a great wealth of ability in this particular line. Her wardrobe is splendid, her changes being made during her turn, the last appearance being made in the costume of a boy.

The Imperial quartette, four men, sing a number of songs in a highly pleasing manner. They harmonize extremely well.

Snyder and Hines two men, are seen in a skating act, that is a decided novelty. They are the originators of "tramp on skates" and have many new tricks performed on the ball bearing wheels.

A comedy sketch, "Home Sweet Home," is presented by Ellsworth and London. It is one of those domestic trouble affairs, that always produces good hearty laughs.

In addition to this excellent vaudeville bill, another very interesting photo play is presented. Janet Beecher is seen in the five-reel feature "Fine Feathers."

Continued powers and then no one can wonder that both the Divine Sarah and the fascinating Geraldine Farrar should be attracted to him.

One Life the Cost of Many. It's a rather odd shifting of scenes. In the Explorer, when Tellegen leaves his society associates in London and is dropped in the very midst of the African jungle with prowling natives peering from every quarter.

The climax is reached, when through an inadvertent mistake the whole tribe descend on the small party of white men. A scientific must be made and rapid action must follow. Those who read the book or saw W. Somerset Maugham's play appreciate the wonderful way in which this precarious position is squirmed out of. The Elaine Riddle Solved at Last.

Endless have been the theories advanced as to a solution to the several Elaine serials, for everyone has seen them and given more or less thought to them, but the surprise in store for the majority will be not a pleasant one but an unexpected one.

Astor Cup: Philly Red Sox Game. With the above will be shown pictures of two of the greatest sports events of the season—the famous Astor Cup auto race over by the Stutz car, averaging 102 miles an hour, a speed record for a car of its class in long distance racing.

The first National Championship Baseball game is also shown, and gives a splendid idea both of the game as these big men play it and of the crowds who attend with intense excitement bordering on frenzy.

Several comedies round out a program already filled with great variety.

"SIXTEEN NAVASSAR GIRLS" LEAD ORPHEUM BILL

"MYSTERIOUS" ALEXANDER COMES AGAIN SUNDAY

One of the 16 Navassar Girls, With Orpheum Show—At White Theater Tonight

The headline attractions on the Orpheum bill at the White Theater for this week, commencing tonight for three nights and matinees Friday and Saturday, will be the band, orchestra and choir conducted by Miss Augusta Dial. The act is known as the "Sixteen Navassar Girls." Every member of the troupe is a soloist, and renders some instrumental selection. The act is said to have met with favor in various cities of the United States.

A bit of comedy will be furnished by Miss Maud Rochez's "Night in a Monkey Music Hall." The act is made up of monkey actors, who give a complete performance, including the orchestra, without the assistance of a director on the stage.

"Here and There in Vaudeville" is the title of an act to be furnished by James Kelso and Blanche Leighton. This act will compose a bill of vaudeville.

For the lovers of the violin, Eugene Diamond may furnish a few pleasing moments. The young violinist is on his first tour in a vaudeville stage, having previously devoted his time to concert work.

The Gliders is the name of an act announced by the management as an addendum to vaudeville. Ruth Robinson and Adolph Blome are the Gliders. They offer novelties in the way of fancy dances.

A young act will be offered in the act entitled "The Aurora of Light." This act is an electrical display, in which a young woman poses.

Recipe to Stop Dandruff

This Home Made Mixture Stops Dandruff and Falling Hair and Aids Its Growth.

To a half pint of water add:
Bay Rum.....1 oz.
Barb Compound.....small box
Glycerine.....1-2 oz.

These are all simple ingredients that you can buy from any druggist at very little cost, and mix them yourself. Apply to the scalp once a day for two weeks, then once every other week until the mixture is used. A half pint should be enough to rid the head of dandruff and kill the dandruff germs. It stops the hair from falling out, and relieves itching and scalp diseases.

Although it is not dye, it acts upon the hair roots and will darken streaked, faded, gray hair in two or fifteen days. It promotes the growth of the hair and makes harsh hair soft and glossy.

—Advertisement—

You Can't Brush Or Wash Out Dandruff

The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

Do this tonight, and by morning, most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single dandruff germ, so no matter how much dandruff you may have.

You will find, too, that all itching and stinging of the scalp will stop at once, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

You can get liquid arvon at any drug store. It is inexpensive and never fails to do the work.

News From Central California

BIG TOURNAMENT TO OPEN TONIGHT AT SELMA

Elaborate Program Is Arranged for Three Day Festival

To Close With Hallowe'en Frolic and Masquerade Saturday Night

SELMA, Oct. 27.—Selma's big game tournament will open tomorrow evening with a benefit concert by the Selma Concert Band under the auspices of the Woman's Improvement Club, and from that minute until the close of the Hallowe'en frolic and masquerade ball Saturday night there will not be a dull moment in Selma. The band for the opening concert is composed of twenty-four selected musicians, under the direction of L. W. Everson, and this organization will be heard in one of the best concert halls in Selma. Besides the band numbers, there will be a special showing of moving pictures, selections by a mixed quartet, and a song composed and sung by Director Everson. The program is as follows:

Opening Concert
Motion Picture—"Little Dick's First Case."
1. Concert March
"Rocked in the Cradle of the Deep"
2. Overture
"The Royal Message" W. H. Lee
3. Concert Waltzes
"Jolly Fellowship" Volstead
(a) "Just Awearry" For You
(b) "Life's Dream Is Past"
Mrs. Beulah Steinwand, soprano
L. W. Everson, tenor
Mrs. C. E. Rule, alto
Prof. L. E. Richards, bass
Miss Thelma Steinwand, accompanist

5. Two Popular Numbers
(a) "Goodnight" E. R. Ball
(b) "Spookville Chimes" frolic
Motion Picture—"Little Chrysanthemum"
6. Overture
"Post and Pre" Suppe
7. Selection
From Opera "Martha" Flotow
8. A Soldier's Farewell
"Sweetheart Be True" By the Singer
Louis W. Everson

Miss Thelma Steinwand, accompanist
American Fantasia
"Gems of Stephen Foster"
arr. by Tolant
10 March
F. H. Losey

Louis W. Everson, bandmaster
Program of Sports
The program of regular sports which is to be given on Friday and Saturday is very complete, and there will be a special day during the several events will be going simultaneously. In addition to the regular sports there will be novelty contests without number.

The latest to be announced in this line is the "wheelbarrow" contest, in which the city trustees are to ride in state for prizes. This contest is in charge of Postmaster Walter Staley, and he announces that the competitors promise a hard fight. As the prize goes to the winner, who will ride in the wheelbarrow, it is expected that they are already reported to be bribing their pushers with all kinds of promises if they win the race.

Mayor Vincent has absolutely thrown aside all the dignity which he shows at board meetings, and freely predicts, as the light weight of the board, that he fully expects to make a race outdistancing all others as completely as when he ran for office.

Human Chariot Races
Sidney L. Glass is in charge of the human chariot races, and his entries are most encouraging. As the race will be mostly over paved streets, the teams are all entering the contest with the expectation of eclipsing all former records.

Cooper, who is looking after automobile sports, announces that he is arranging for a blindfold driver race accompanied by some one to provide protection against accidents in case of emergency. This race also is other features in the way of slow races, and amusing features incidental to auto driving.

Frank B. Howard and Harry Scott, who have charge of the Wild West show, have arranged for a two hour show, which will be given on Friday and Saturday afternoons. The show promises to be a big feature, while Howard's two little sons will be seen in some horseman's stunts which would credit an experienced cowboy.

Live Stock Races
F. S. Girty has charge of the stock parade to be held Friday afternoon, and expects to have a large lot of blue ribbon animals in this showing. The live stock parade is to be led by the Boys' band of the Selma grammar schools.

SONORA JOTTINGS
SONORA, Oct. 27.—News has reached here of the marriage of Miss Ora Blinn, formerly of this city, to Frank H. Short, a mining engineer of San Francisco. The marriage was solemnized in Oakland, at St. Mary's cathedral, by Rev. Father Brennan. Mrs. Short was the eldest daughter of Mr. and Mrs. E. C. Blinn of Sonora. After the death of her father she moved to San Francisco and later resided in Berkeley.

Three carloads of choice mountain apples from the Ralph orchard were shipped this week to the markets at Stockton. This season quantities of these apples have been shipped to eastern states, and last week a shipment was made to Honolulu.

Tobias Wilkins of Sonora was among the successful aspirants to the legal profession before the appellate justices and has been admitted to the bar.

PLAN RECEPTION FOR NEW PASTOR
SPRINGVILLE, Oct. 27.—An enthusiastic business meeting of the Ladies' Aid of the Methodist church was held at the home of Mrs. A. W. Patton, Thursday. Arrangements were completed for a reception for the incoming pastor, Rev. F. W. Howlett and his wife. Officers for the ensuing year were elected as follows: President, Mrs. C. A. Elster; vice president, Mrs. F. W. Howlett; secretary, Mrs. A. W. Patton; treasurer, Mrs. W. H. Neal.

Merced Decides to Abolish Township Known As Atwater

MERCED, Oct. 27.—According to the returns from thirty out of thirty-eight precincts, the measure to adopt the ordinance proposed by the superior court abolishing judicial township No. 8, and changing the boundaries of township No. 2, carried. The vote was 714 to 568. Township No. 8 includes the town of Atwater. The adoption of this ordinance places Atwater in township No. 2, which also embraces the town of Merced.

DISCUSS AMENDMENTS
EASTON, Oct. 27.—On Tuesday the students of the American history class at the Washington union high school held a discussion before the student body of the legislative measures which were before the electors on that day. A brief outline of the proposed amendments, and on account of the California state government, in comparison with other state governments, was given by Mr. Thompson, teacher of history, before the discussion began.

HOTEL HUGHSON SUES FOR \$35,000 DAMAGES
Claims Mrs. Hughson Repudiated Agreement to Purchase Hotel

MODESTO, Oct. 28.—The suit of the Hotel Hughson company against Mrs. L. E. Hughson for \$35,000 damages, alleged to have been the sum of a verbal agreement by the defendant to purchase the business and furnishings of the Hotel Hughson last February 28th which she subsequently repudiated, was started on trial this morning in the superior court before Judge L. W. Pulkert. The case is the outgrowth of the difficulties of the Hotel Hughson company in paying creditors before the furnishings of the hotel were removed by attachment and sold last spring. The agreement involved in the suit was a trial by jury of the method which was attempted to clear up the indebtedness by selling the business to Mrs. Hughson, owner of the building. Mrs. Hughson has since repudiated the hotel and is now operating it herself with J. E. Crowe as manager. The suit will require two days for trial.

AUTOIST IS KILLED IN MERCED ACCIDENT
Was Postal Employee On His Way to Exposition to Begin Vacation

MERCED, Oct. 27.—Arthur Stretch died in a hospital at Pleasanton this afternoon of injuries received last night when he was riding in a car. Stretch was riding on an embankment when the driver miscalculated a turn in the road. Stretch's injuries were on the head. O'Neill escaped with minor bruises. The two men were fellow employees in the Merced post office and left yesterday afternoon on their vacation. Stretch was the son of C. E. Stretch, a resident of Bradyville addition, and had lived here for four years. Previously he lived at Newburg, Ore.

DISCUSS PLANS OF FAIR EXHIBIT
Tulare County May Maintain Showing for Another Year at San Diego If Exposition Continues

VISALIA, Oct. 27.—Just what Tulare county would do looking toward the possible maintenance of the county exhibit at the Panama-California exposition, should it be definitely determined to continue the San Diego show through 1916, is occupying a great deal of attention here. While the belief is prevalent that the county supervisors would elect to continue the work started there and which is doing a great deal of good, this body has made no official expression. It is almost certain that Secretary A. E. Miot of the Tulare County Board of Trade, in whose charge the exhibit work is placed entirely, will favor keeping the county exhibit open in the south should the fair be kept open.

NEWS BREVITIES OF TRANQUILLITY
TRANQUILLITY, Oct. 27.—Miss Dorothy Stricklin, a Laton high school student, visited her parents here Sunday.

Mrs. A. Brown, D. V. Brown, H. E. Brown and sons are exposition visitors this week.

Mrs. D. V. Brown has returned from San Jose, where she visited her mother, who is ill. She reports her much improved.

Miss Bertha Rankins, who is teaching school at Heim, visited homefolks Sunday.

TEXANS INSPECT ROADS IN VALLEY
TULARE, Oct. 27.—Judge Adrian Pool and Commissioners James Clifford Penell and Seth B. Orndorff, of El Paso county, Texas, were in Tulare today on their way to Fresno and other points north. They are inspecting a new highway system in their county, \$360,000 having already been raised for that purpose.

MADERAN IS BADLY STUNG
MADERA, Oct. 27.—While cleaning out a chimney at the jail today a man named Smith from Sacramento was nearly stung to death by bees. Smith ascended to the roof and began his work, when he was stung by a large number of bees which had found a lodging place inside the chimney. Hearing his cries for help, Sheriff Lewis and Smith's partner turned on the garden hose, into the man's face, and succeeded in dislodging the bees, but not before he was badly stung about the face, head and hands.

WHEELS OF WAGON CRUSH OUT LIFE
Little Child at Kerman Is Instantly Killed in Fall From Load of Sand

KERMAN, Oct. 27.—The 3-year-old son of Mr. and Mrs. A. Boverio was instantly killed this afternoon when the little fellow slid from the side of a wagon loaded with gravel. The boy was sitting on the gravel near the front of the wagon, and when the wheel going over his head, fatal arrangements have not yet been completed.

BANKS IN EXETER MERGE INTERESTS
First National Takes Over Business of Citrus-National; to Organize Savings Department; Notes

EXETER, Oct. 27.—A merger of the Citrus National and First National Banks of Exeter has been effected within the past few days, and the consolidation will take place at the close of business Saturday evening. The First National assumes the assets and liabilities of the National, and for the present the First National will be the only banking institution here. It is planned later on to establish a savings department to be located in the building now occupied by the Citrus National, on the corner of Pine and E streets.

Mrs. Sarah R. Moore of Portland, Oregon, is spending the week with her cousin, Mr. and Mrs. S. N. Wilkins. Mrs. William G. May of Berkeley was an Exeter visitor the first of the week.

Mrs. P. A. Mix has returned from a visit at the exposition. Mr. and Mrs. E. E. Patton and Miss Julia Patton have returned from a ten-day trip to the fair.

Mr. and Mrs. T. A. Fornan are in San Francisco and Berkeley, where they will spend several weeks at the fair, and on a visit to their son, who is a student at the university.

Mrs. C. P. Gash is quite ill at her home.

MARICOPA VOTES TO ISSUE \$15,000 TO BUILD NEW SCHOOL

MARICOPA, Oct. 27.—With a vote of 152 for and 2 against, the election held on Monday for the purpose of voting \$15,000 in bonds for the erection of a new high school building in this city, carried and as already several bond buyers are in the field with offers for the bonds, the funds will soon be available. The plans for the building are all completed as the structure was to have been started more than two months ago. The fact that the bonds, which were voted on before were found to be faulty on account of the defective being wrongly made, made it imperative that another election be held. The fact that a larger number of voters turned out, and that the majority was almost unanimous, shows the interest of the residents in providing proper school facilities. At the first election the bonds carried by 113 to 1. The building will be started as soon as the bonds are sold.

BEGIN SECOND TRIAL IN SUIT FOR DAMAGES
Son of Ditch Tender Killed at Lemon Cove Secured Judgment

VISALIA, Oct. 27.—The second trial of the case of Bessie C. Brown against the Lemon Cove Ditch company, began this morning before Judge J. A. Allen. The first trial resulted in a judgment for the plaintiff of \$7,000, and now \$40,000 as previously stated. The amount claimed in the original suit was \$25,000. A new trial was granted. The father of the plaintiff was killed in falling from a flume over which a plank used as a footpath had been torn loose.

NEWS BREVITIES OF CALWA CITY
CALWA CITY, Oct. 27.—Mrs. Jane Gray, who has been spending the summer with her niece, Mrs. Clark Shields, has returned to her home in Chattanooga.

Mrs. W. C. Watkins has as her guest her sister, Mrs. Fred Woods, of Los Angeles, who will spend several days with her.

Mrs. F. R. Dobson is entertaining guests from out of town. Passenger brakeman A. Stone, who has been on a vacation for the past four weeks, is at work again.

P. Atkinson is again at work on the east end run of the Santa Fe. The train, who have been in Lindsay for several days, have returned to Calwa.

Harry Boaz, passenger brakeman on Nos. 31 and 32, has been transferred to a freight train and 34, with a Sunday layover in Richmond. Thomas Miquadine of Richmond has taken his place.

R. L. Creighhead and family of Fresno, who were Calwa visitors, calling on Librarian William and family Sunday.

Mrs. J. D. Tilt of Seattle, Wash., who has been in Calwa for the past two weeks, visiting her niece, Mrs. Roy Rogers, left yesterday for Los Angeles. She will visit San Diego before returning to her home.

William O. Steynman, Jr., is now employed in the Calwa shops.

J. L. Helman of Los Angeles, has taken a position as switchman in the local yards.

F. S. Sharp has been off duty a few days on account of illness.

J. W. Wilson, chairman of firemen's grievance board, has returned from a business trip to Los Angeles.

NEWMAN JOTTINGS
NEWMAN, Oct. 27.—Work has commenced on the Sharp memorial fountain which John Sharp donated to the city. It will be a fine monument to the late John Sharp.

C. H. Harding has awarded the contract for a new home on C street, between Mariposa and Tolo avenues.

A. Fleaharty, editor of the Index, and family spent the week-end in San Francisco visiting the exposition.

Harry Gerow and George Sterns have returned from a hunting trip near Gustine.

Mr. and Mrs. Roy Smith and children were at Hollister to spend Sunday with relatives.

The Woodcrafts surprised Mrs. Harry Gerow Saturday evening by helping her to celebrate her wooden wedding. About twenty-five of the members attended.

H. C. Lessley, a prescription clerk, expects to move his family here from the city in about a month and locate permanently.

Mrs. A. J. Trevis will entertain the Presbyterian ladies' aid society at her home tomorrow afternoon.

Twelve members of the Pythian order visited the lodge at Modesto Friday evening.

Mrs. L. H. Parker has as her guest this week Mrs. Geo. Davis of Kirkland, Wash.

F. A. Forholtz of San Francisco made a business trip to Newman yesterday.

The Ladies' Aid of the Presbyterian church held a sewing bee at the home of Mrs. J. L. Klinear yesterday afternoon.

BOOTLEGGERS DEMAND JURY
HANFORD, Oct. 27.—J. K. Box, charged with selling liquor without a license, pleaded not guilty to the charge today. His trial will be set for early next week. H. Kimura, charged with the same offense, also pleaded not guilty and has retained J. Frank Pryor to defend him.

LUMBER WORKER IS INJURED IN MADERA

Piece of Cable Enters Eye Socket Destroying the Sight in One Eye

MADERA, Oct. 27.—Neil Davis, employed at the lumber-mill at Sugar Pine, was seriously injured this morning when the cable broke and a piece of steel five inches long entered the socket of one of his eyes, destroying the sight. The injured man was brought to Madera and is now under the care of Dr. Hanson. Whether the brain is affected is not definitely known. Davis is in a serious condition.

CORCORAN PLANS BOND ELECTION
Issue Is Proposed to Provide Water System for City; Brief News Notes and Personal

CORCORAN, Oct. 27.—At the council meeting Monday evening plans were started for a bond election to provide a water system for the city. Several amendments to ordinances were introduced so that the council can go ahead with plans for the water bonds. O. D. Strong was appointed sidewalk inspector. An unsuccessful effort was made to select a successor to J. B. Mayer, who recently resigned. Several ballots were taken without result.

Nearly everyone having a car went to Hanford Tuesday to help haul out the excursion who arrived there on the Special from the east. It had been previously arranged and agreed upon that the train should stop at Corcoran, and arrangements were all made to take the home-seekers out over the alfalfa and dairy farms and from there over the vast wheat fields of the Lake region and then to Hanford, where they would meet the train again but for some reason the plans were entirely changed at the last minute and Corcoran was merely notified that the train would not stop here.

T. E. Cochran spent Sunday and Monday in town and returned to San Francisco Tuesday evening.

J. C. Hanley is having his house on Wadley avenue painted both inside and out.

The street commissioner, F. Parrish, is preparing Whitley avenue for a car race.

At a faculty meeting Tuesday evening of the Corcoran union high school teachers it was decided to have an all home town entertainment at the high school auditorium in about six weeks. The exact date will be decided upon later.

Mrs. John Elliott has been sick the last week.

Fred Storback and daughter Bertha spent Tuesday in Fresno.

Miss Bessie Silverthorn, county librarian, and her mother spent Monday in town. Miss Silverthorn spent several hours at the high school.

Dr. and Mrs. Peery and Mrs. Peery's mother, Mrs. A. H. Johnson have returned from the fair.

Mr. and Mrs. J. C. Martin and Mr. Roy Arnold departed for San Francisco by auto Wednesday morning. They will be gone about ten days.

RIVERBANK NOTES
RIVERBANK, Oct. 27.—L. H. Collett and family will attend the San Francisco state program at the exposition.

W. O. Post arrived home yesterday from Bagby, where he has been employed for the past few months.

C. J. Smith and wife returned last evening from a few days at the San Francisco exposition.

The Laguna boys at the Santa Fe shops are spending their evenings at the present time dancing the famous Corn dance, one of the religious dances of the tribe. This dance was given a year by a number of the tribe publicly. It was the first time white people were ever known to have witnessed it and the members that gave it were highly censured by the tribal members in New Mexico for having given the dance before the public.

The gravel and sand is being hauled and placed on the ground south of the Santa Fe shops, where the siphon is to be put under the Santa Fe tracks. The siphon is being built by the Oakland Irrigation system and when completed will add additional land in west Riverbank will be under the system.

El Rio, C. E. S. of Riverbank, was granted a charter the past week at the meeting of the grand chapter of the Eastern Star that was held in San Francisco. The new lodge very soon will have a good working membership.

Joe Laventolo, one of the boys employed at the Santa Fe shops, met with a painful accident this morning while out shooting rabbits. His gun exploded in his left hand, badly injuring it. The injury was at once looked after and the patient sent to the hospital, at San Francisco.

Business is very heavy now in the Santa Fe yards and shops. The points shipment to eastern markets makes business good in the rip yards, while all other departments are very busy now. A shipload of raw silk has arrived at San Francisco for shipment to New York City, and the Santa Fe is billed to handle 300 cars of the shipment. The boat brought in about 840 car loads which will be hauled by the various lines.

BRIEF REEDLEY PERSONAL NOTES
REEDLEY, Oct. 27.—Mrs. Jesse Kolb was in Fresno yesterday.

Mrs. J. B. Monaw is spending the week at Porterville.

Miss Katherine Sharnier and Mrs. M. O. Sager visited yesterday in Fresno. Edward Reed left yesterday for Los Angeles.

H. L. Wood and C. H. Reinhardt were transacting business in Fresno today.

H. M. Friesen was a Fresno visitor today.

F. W. Davis has returned from a pleasant visit to San Francisco and the exposition.

Miss Krommer is here visiting her sister, Mrs. C. H. Reinhardt. She is out here from the east and expects to make her home in Fresno.

BIRTHS, DEATHS AND MARRIAGES IN THE SAN JOAQUIN VALLEY

LIVINGE—In Lemoore, October 25, 1915, to the wife of Fred Livinge, a son.

BROWN—At Modesto, October 26, 1915, to the wife of W. J. Brown, a daughter.

ADAMS—In Porterville, October 26, 1915, to the wife of S. M. Adams, a son.

LICENSED TO WED
COLE-BACHMAN—In Visalia, Wm. T. Cole, 33, of Manteno, and Chlole A. Bachman, 26, of Porterville.

ENGAGEMENTS
LA GUE-ROBERTS—The engagement of Miss Frances Irene La Gue and J. B. Roberts has been announced. Mr. Roberts is a resident of Hanford, where she is a graduate of the grammar school last year. She is a sister of Mrs. G. W. Price of this city.

ELEVENTH INCENDIARY FIRE VISITS MODESTO
First Was Two Months Ago, Followed at Intervals By Ten Others

MODESTO, Oct. 27.—The eleventh fire of incendiary origin since September 1 occurred this morning in Modesto destroying a barn owned by Mrs. Fred Spenser valued at \$500. The fire this morning was discovered at almost as soon as started in a pile of old lumber inside the barn, and the smell of oil was proof of the origin. The night of October 13, two barns were fired, the incendiary being surprised in the act of lighting one but making his escape. The fires again have been lighted in sheds and small barns on occasions when no horses were present, a fact which is considered peculiar. The fires of the night of September 1, destroying the Grange company's warehouse and the Modesto soda works, are considered the most serious, but the later ones are thought to be the work of a local firebug.

WILL FIX DATE FOR IRRIGATION MEETING
Modesto Committee Is Appointed to Arrange State Conference

MODESTO, Oct. 27.—Assemblyman L. I. Bennett, C. S. Abbott, secretary of the Modesto irrigation district and Floyd Wisenberger, secretary of the Chamber of Commerce, were appointed a committee to make final arrangements and to fix a date for the proposed meeting of the irrigation districts of the state, at the meeting of the Chamber of Commerce last night.

The purpose of the meeting is to bring together the representatives of all irrigation districts for the discussion and formation of plans tending toward laws beneficial to the district. Modesto is considered a central point for such a meeting, and the arrangements have been left with the Modesto Chamber of Commerce.

TURLOCK JOTTINGS
TURLOCK, Oct. 27.—A. Goldenberg and family left yesterday for San Francisco to make arrangements for the removal of their household goods to Turlock. They have rented the Charles Herbst residence on Crane avenue.

Miss Reba Klein has returned home having spent the summer in San Francisco.

Mr. and Mrs. Frank King and niece, Miss Gibson, of Kings, Ill., are visiting at the home of Mr. and Mrs. Chas. Klein. Mr. King is cashier of the bank of Kings.

Mrs. W. E. Hester returned home yesterday after a visit in Los Angeles. She was accompanied by her parents, Mr. and Mrs. A. W. Marshall of Modesto, Mich., who will spend the winter in Turlock.

Mrs. Cora B. Hanford of this city has commenced suit in the Superior Court against Edward D. Hanford for divorce.

Miss Vera Nolan of Washington, Kansas, is a guest at the home of Miss Rena Ross.

City Clerk A. P. Ferguson and son, Fred, accompanied Lloyd Cunningham to San Francisco this morning, going in the latter's car. They will spend several days viewing the sights of the Exposition. Former City Clerk A. E. Sutton arrived from Los Angeles yesterday and will have charge of the city office during Mr. Ferguson's absence.

The remains of the late Robert A. Bowles of Atwater were brought to Turlock yesterday for interment. Deceased was a former resident of this city. He was a native of Ohio and was 71 years.

The irrigation directors held a short session yesterday. A resolution was adopted authorizing the secretary to credit the tax collector with erroneous taxes for the year 1914 amounting to \$82,91.

Max Strauss has brought suit in the justice court against A. T. Hanford to recover \$837.69, being the amount of a promissory note, together with various claims assigned to him by other merchants.

Turlock Camp No. 735, W. O. W., will hold a class initiation Friday evening, at which time Head Banker A. E. Sunderland of Fresno will be present and occupy the station of consul commander during the ritualistic work. District Manager C. L. Shreffs of Fresno will also take part in the ceremony, a banquet which will follow initiation being arranged by a committee consisting of A. V. Fernandez, D. C. Thornburg and W. M. Bowman.

SANGER BUSINESSMEN ENJOY FINE BANQUET

Prominent Members Address Meeting of Methods of Advertising City

SANGER, Oct. 27.—More than fifty business men of this city met at the Elan hotel last evening at 7:30 and partook of a banquet given by the Chamber of Commerce as a get-together proposition, at which time the matter of judicious advertising was the chief topic of the evening. W. D. Mitchell, as president of the chamber, called the meeting to order and after explaining the reason for the gathering, appointed J. B. Burnett as toastmaster. Speeches were made by F. D. Atkinson, J. W. Post, W. M. Barr, E. M. Knox and others.

Mr. Atkinson of Chicago, brought the message that in his opinion Sanger was in a better financial condition than any other town of its population in the United States.

A committee was appointed to work up an advertising scheme, consisting of J. B. Cain, F. D. Atkinson and J. W. Post.

Howard Russell, in the course of his remarks, told his hearers that it was unfair for the merchants to ask the small country papers to boost all the time and not give them a better part of their advertising. It was voted to hold the next gathering on November 22, at the same place.

SANGER JOTTINGS
SANGER, Oct. 27.—Cullen C. Allen celebrated his 73rd birthday yesterday and incidentally voted at the special election. His name was cast for Fremont for president. Mr. Allen boasted that in those days they were not so particular as now as he voted the first time before he was 21.

Sanger Chamber of Commerce and the Woman's Improvement club sent a delegation to Modesto yesterday, where the Farmers' Special passengers were met, and invited them to visit Sanger, which invitation was accepted. At Sanger the band was out and played a few selections while the committee from the woman's club distributed a bouquet of flowers to each of the visitors.

The actual work on the streets began today when the contractor began plowing on Seventh street and also started a sprinkling wagon, which will be in use during the worst of the time from now on.

Ross Phillips has been appointed by the superintendent of streets as inspector. He will arrive from Hume in a few days.

Several parties motored to Fresno last night to attend the performance given at the Elan hotel by the S. L. James glee club. The opera, which was written by a former Sanger young lady, Miss Harriet Bennett, and the leading roles were taken by Miss Bennett and Miss Carlotta Garrison.

Several of the S. L. M. W. A. attended the Monday night log-rolling at Fresno.

EXTENT OF WINE MANUFACTURE HERE REVELATION TO OSBORN

Internal Revenue Commissioner Sees District; Says Industry Cannot Be Killed; Provision May Be Made for Bonding Fortified Wine

The extent of the sweet wine industry in this district was a revelation to W. H. Osborn, United States commissioner of internal revenue, yesterday and he did not hesitate to say so.

As to what he might recommend in the way of legislation to relieve the present tax situation, he would not say, nor would he commit himself on the burden of the 55 cent brandy tax or the burden of a \$1.10 tax might impose. In response to questions regarding the tax burden, Osborn said he was not sufficiently informed of conditions to be able to answer.

He did suggest, however, that there is a good market in the East for California brandies, asserting that they are practically unknown there. "This trip has been a revelation to me," he said. "I had not the slightest idea that the industry was conducted on the scale that I have found it here. This one thing can be stated with certainty, the wine and brandy manufacture of California cannot and will not be killed—it is too large. Can't answer as to Burden.

Commissioner Osborn would not be drawn into any discussion of the possible tax after the first of the year. "I myself don't know what it will be. My visit here is for the purpose of making a general report through my office to the office of the secretary of the treasury. Mr. McAdoo's recommendation may be the basis of the laws for the new tax rate. As to what that will be, I have not the slightest knowledge."

When asked whether he considered that a tax of \$1.10 per proof gallon for brandy or alcohol to fortify wines was excessive, Mr. Osborn stated that he did not know.

"I don't even know just how much

ABOLISH FOOTBALL BECAUSE OF FATALITY

GALLATIN, Ill., Oct. 27.—The faculty of Knox College today decided that football at the institution should be discontinued at least this year, because of the death of Herman Scott, injured in the game with St. Louis October 16, and who later died.

Others against the common enemy, the illegal wine market.

He said he favored a nominal tax on all wine, even dry, to get under regulation. No one knew, he said, what tax was desirable, but the wine men were willing to try out on some basis.

As to Dry Wine Interests

Don Dero, who is connected with the Sauck & Lombardi Wine Company of San Francisco and who represented the dry wine interests, agreed with Wetmore on a partnership with the government and in a tax upon all wines. The chief market, he said, for California wines was among foreigners from the Mediterranean countries, mostly Italians. When the price of wine goes up less wine is drunk, he said, but more beer. The war has interfered materially with the industry, he asserted. As an illustration, he pointed out that 100,000 Italians from New York alone, who consumed 25,000 gallons of wine per day, are now fighting in the European war. The cost of getting wine to New York is equal to the cost of wine itself, and if too much more was added to the tax, wine drinkers would not drink wine, he added.

Wants Sake Defined

Don Dero called attention to the sake breweries of Hawaii. Sake is a fermented drink, made out of rice and containing about 17 per cent alcohol. The customs department, he said, construes this drink as wine and taxes it accordingly, while the internal revenue department construes it as beer. He proposed that the government construe Sake as Sake, and if this was impossible, to construe it as a fermented liquor with a high alcoholic content.

"The Japanese like wine, he said, unless Sake is cheaper, and it is cheaper now because it is taxed like beer. Two of the largest sake breweries in the world, he said, have been erected in Hawaii. Others who spoke were J. W. McGinnis, Chester H. Rowell and A. H. Morrow.

DR. THOMAS CLAYTON, who has answered a call from the Unitarian church of Houston, Texas.

Rev. Dr. Thomas Clayton, pastor for four years of the Unitarian church and one of the most active in all civic movements—especially the Fresno Relief Committee—has answered a call from the Unitarian church at Houston, Texas, and accompanied by Mrs. Clayton will leave Fresno next Tuesday evening. He will arrive in Houston the following Friday and a big reception has been arranged to welcome him and his wife to his new charge.

Dr. Clayton answered the call from the Fresno Unitarian church in April of 1910. He came to Fresno from Pittsburg, Penn., where under his leadership the Unitarian church had a large congregation and had just constructed a new edifice.

Dr. Clayton has been just as successful in his work in Fresno as he was in Pittsburg. A few months after his arrival here and after he had been installed as pastor of the Unitarian church a new edifice was erected at O and Tuolumne streets. The building was dedicated in the fall of the year that Dr. Clayton took charge. He was pastor of the church until January, 1914, when he tendered his resignation. While Dr. Clayton had charge of the Unitarian church here the congregation was greatly increased and much credit is due him for his successful efforts.

Since resigning from the pastorate Dr. Clayton has been preaching at a Unitarian mission in Hanford but has continued his residence in this city. Recently a small Unitarian church was constructed in Hanford. Dr. Clayton will deliver his farewell sermon there Sunday.

Active in Civic Affairs.

Dr. Clayton always took an active part in all movements for the betterment of the city. He was one of the organizers of the Public Health League, which conducted anti-fly campaigns during the summer months and made other attempts to rid the city of disease.

Dr. Clayton was one of the prime movers in the City Beautiful Committee and served as secretary for one year. He with Mayor Snow and G. L. Ayresworth issued the call for the public mass meeting which ended in the organization of the Fresno Relief Committee. Dr. Clayton was elected the permanent secretary of the organization at the same time William Glass was elected president.

The Munsingwear Factory Turns Out 20,000 Garments Every Day to Supply the American Demand for Munsingwear

—This famous underwear is made in one of the largest and best equipped mills in the whole country, where every facility experience can suggest and money can supply, are at the disposal of the trained, expert operators; where the most hygienic conditions prevail; where every system that tends to perfection of product is employed, and where supervision is extended so far as to include the physical and material conditions of its workers. With the finest yarns to work with, the most up-to-date machinery, and a system so perfect, it is no wonder that this model factory turns out such perfect underwear and in such quantities, 20,000 a day, day in and day out. No wonder Munsing Underwear costs so little. The immensity of the product assures low cost, and makes it the best underwear value that can be had."

CONGREGATIONALISTS CLOSE CONVENTION

NEW HAVEN, Conn., Oct. 27.—The closing session of the Congregational bodies which met with the National Council of Congregational Churches was that of the American board late today when farewells were given to missionaries who are soon to sail for foreign fields. The council of Congregational churches itself adjourned earlier to meet in Los Angeles in 1917. The registration list showed that 1350 delegates to all bodies had been in attendance during the week of the meeting.

the transfer of all property to a new corporation and the issuance of stock to the par value of \$2,000,000 and of bonds of various sorts to the amount of \$12,500,000.
